WPI INFLATION SHOOTS UP TO 8-YEAR HIGH OF 7.39% IN MARCH

Rising crude oil and metal prices pushed up the wholesale price index (WPI)-based inflation in March, government data showed on Thursday

LOW BASE CONTRIBUTES TO SPIKE

WPI inflation was 4.17% in February 2021 and 0.42% in March 2020. The low base of March last year, when the data was computed with a low response rate due to the Covid lockdown, contributed to the spike in March 2021. This is the third straight month of increase in the WPI. The last time WPI showed such a high level was in October 2012, when inflation was 7.4%

DRIVEN BY OIL, METALS, CHEMICALS

- Inflation in the fuel and power basket was 10.25% in March, against 0.58% in February on higher fuel prices
- Icra Chief Economist Aditi Nayar said the jump in WPI-inflation was driven by metals, textiles, chemicals, rubber, etc as many of them recorded large price increases globally in recent months | P13

32.1%

Daily count crosses 2 lakh, doubles in 10 days

Oxygen scarcity continues; Delhi overtakes Mumbai's single-day peak; Kumbh Mela may end soon

EXPRESS NEWS SERVICE
@ New Delhi

THE daily fresh Covid case count in the country shot past the 2-lakh mark on Thursday morning for the first time, amid reports of acute oxygen scarcity from various states. To get a sense of the unprecedented public health emergency staring India in the face, the country took just 10 days to double its active cases from 1 lakh to 2 lakh, while the US had taken more than 20 days in doubling to 2 lakh. And daily fatalities have crossed 1,000 since the last two days.

Many experts fear the current trend may push daily infections up for many days to come and the country may even surpass the highest daily infections of over 3 lakh registered in the US in early January.

Amid all the anxiety about the ongoing Maha Kumbh in Uttarakhand becoming a super spreader, there was some self-regulation as the Shri Panchayati Niranjani Akhada, one of the 13 participating akhadas, announced the conclusion of the mega event on April 17 instead of the scheduled May 8 in view of the pandemic.

A final call will be taken by the apex body of 13 akhadas, the Akhada Parishad. As many as 2,269 Covid cases have been detected so far in the mela area. With Delhi overtaking Mumbai's single-day peak (11,163 on April 4) by recording over 17,000 fresh cases, Chief Minister Arvind Kejriwal announced a weekend curfew and the closure of malls, gymnasiums and auditoriums till April 30 as part of sweeping restrictions to break the chain.

Maharashtra stayed on top of the Covid chart with 61,695 fresh cases and 349 fatalities. As many as 36 lakh patients in the state are in home quarantine while 27,273 are under institutional quarantine.

With Uttar Pradesh recording 22,439 new cases and staying at second highest on the national list, the government decided to incrementally increase the time of night curfew. P9

NATIONWIDE

	APRIL 14	APRIL 15
Fresh cases	1,84,372	1,97,865
Recoveries	82,339	1,04,507
Deaths	1,027	1,019

14.7k New cases as K'taka sees another big jump

EXPRESS NEWS SERVICE
@ Bengaluru

JUST a day after Karnataka saw its highest daily spike at 11,265 Covid-19 cases since the pandemic started in Karnataka on March 8 last year, the state beat its own record, adding a whopping 14,738 cases on Thursday. It registered a 1.34 per cent growth rate in the tally of Covid-19 patients, from 10,94,912 on Wednesday, to 11,09,650 on Thursday.

With this massive jump in cases, the positivity rate has shot up to 4.78 per cent from 4.75 per cent the previous day.

As against the massive number added cases, Thursday saw just 3,591 patients being discharged, contributing to consistently pushing down the recovery rate across the state.

STATE WIDE

	APRIL 14	APRIL 15
Fresh cases	11,265	14,738
Active cases	63,167	96,561
Deaths	38	66
Tally	78,795	1,14,890
Fresh cases in Bengaluru	8,155	10,497

CBI to probe cops who framed Nambi

EXPRESS NEWS SERVICE
@ New Delhi

THE Supreme Court on Thursday accepted Justice D K Jain Committee's report on the lapses of Kerala Police officers in the ISRO spying case and asked the Centre to hand it over to the Central Bureau of Investigation for further probe.

A bench headed by Justice A M Khanwilkar asked the CBI to submit its report within three months and made it clear that the panel's report can't be made public or shared with anyone, including former ISRO scientist S Nambi Narayanan.

The court also clarified that the copies of the report can't be given even to officials named in it or in the petition. The bench directed the CBI to treat the Jain panel report as a preliminary inquiry report and proceed further.

Two-and-a-half-years after it was asked to look into the lapses on the part of the Kerala Police officers in wrongfully arresting Nambi Narayanan in 1994, the Jain Committee recently submitted its report to the apex in a sealed cover.

The panel probed the roles of police officers Siby Mathews, K K Joshua and S Vijayan in framing Narayanan. P7

Wipro to scale up hiring

BISMAH MALIK @Bengaluru

BENGALURU-BASED IT major Wipro, which on Thursday posted a 27.7 per cent jump in consolidated net profit at Rs 2,972 crore for the March 2021 quarter, will embark on a robust hiring plan, give skill-based bonuses and salary increments for senior employees after the adoption of a new operating model last quarter. Wipro CEO and Managing Director Thierry Delaporte said the company had announced salary increments and promotions, covering about 80 per cent of its employees, effective January 1, 2021, and that it will increase the wages of the remaining senior executives in June. FULL REPORT: P13

Down with fever, CM leaves roadshow midway

EXPRESS NEWS SERVICE
@ Belagavi, Bengaluru

ON the last day of campaigning for the Belagavi Lok Sabha bypoll on Thursday, Chief Minister B S Yediyurappa, who was holding a roadshow for BJP candidate Mangala Angadi in Belagavi, had to quit midway as he developed uneasiness and fever.

The road show was planned from Shivaji Garden in Belagavi South Assembly constituency through prominent roads and to end at Mahatma Phule Road. However, Yediyurappa started feeling exhausted and left for the hotel after the roadshow had barely covered half way.

Sources in the CMO said Yediyurappa had mild fever two days ago and had undergone a Covid test before hitting the campaign trail. The test report had returned negative. After being checked by doctors and resting for some time in Belagavi, the CM left for Bengaluru by a regular 7.30 pm flight. P4

To chair meet on Covid

CM will rest for two days on Friday and Saturday, and chair an all-party meeting in Bengaluru on Sunday evening

Act soon on collegium suggestions, SC tells govt

EXPRESS NEWS SERVICE
@ New Delhi

EXPRESSING concern over the Centre's inordinate delay in responding to the Supreme Court Collegium's recommendations for appointment of judges, the apex court on Thursday sought a 'reasonable time frame' from the government for a decision.

It pointed out that 10 names recommended by the Collegium were pending with the government for a year-and-half. Attorney General K K Venugopal said the government will take a decision within three months.

Reserving the order on a plea filed by NGO Lok Prahari seeking appointment of additional judges in high courts under Article 224A of the Constitution to reduce the pendency of cases, a bench headed by Chief Justice S A Bobde also flagged the rise in false complaints against judges. The bench said judges should not be made to feel insecure.

Experts call for uniform student assessment

Say continuous and comprehensive evaluation across different boards is the best way to apprise students

CHETANA BELAGERE @Bengaluru

IN the wake of the Central Government cancelling the Central Board of School Education Class 10 examinations, experts have called for uniformity in assessment of students across different boards.

According to them, it is crucial that all boards come up with a similar decision as cancelling the exams and assessing students based on Continuous and Comprehensive Evaluation (CCE) will anyways be uniform.

Speaking to *TNIE*, educationist Niranjan Aradhya felt that there was no harm in cancelling the examinations, considering the pandemic. "Like CBSE, all other boards also now have the CCE method of evaluation, and that's the best way to assess a student. It is also part of the recently framed National Education Policy," he said.

However, the only issue is that if there is no uniformity across boards, then admitting students to first year Pre-University Course (PUC) will be a challenge. For PU, most colleges set a cut-off percentage based on the student's Class 10 score and admit them accordingly.

"This may become a problem for students who have appeared for exams, but did not secure high marks, or a higher percentage. So, cut-off percentage should probably not be set for this year's admission. There must be other criteria for this," Aradhya felt.

The Karnataka government was one of the first states in the country to conduct the SSLC examinations successfully during the pandemic last year. However, no decision has been taken yet on whether the exams will be cancelled this year, or be held on the scheduled dates.

Meanwhile, following the Centre's decision, anxious students of the state board and Indian Certificate of Secondary Education (ICSE) too have started a Twitter campaign, seeking cancellation of their exams. The campaign has resulted in the hashtags #cancelboardexams and #cancelboardexamsicse, trending on social media platforms on Thursday.

Lockdown not an option, but stringent measures a must: Health Minister

EXPRESS NEWS SERVICE @Bengaluru

IN the backdrop of the state reporting 14,738 cases on Thursday, Health and Medical Education Minister **Dr K Sudhakar** said that stringent measures need to be put in place in the coming days to control the surge, but ruled out lockdown as an option.

Speaking at a virtual interactive meeting organised by the Federation of Karnataka Chambers of Commerce and Industry (FKCCI) on Thursday, the minister agreed that the economy had taken a beating during the pandemic lockdown last year. So, lockdown is not an option this time, he said.

"I will definitely consult FKCCI members and the Chief Minister on this, but I also understand that lockdown is not an option considering the economic situation we are in. However, it will be extremely important for us to impose some stringent restrictions to control the rise in number of cases," Sudhakar said.

Gaurav Gupta, Chief Commissioner, Bruhat Bengaluru Mahanagara Palike (BBMP), said that the trade body should emphasise on repeated testing of employees at workplaces to avoid the spread of Covid-19.

"FKCCI should also provide us space at factories, industries and apartments to put up swab collection centres. The government has now permitted vaccinations at workplaces and this also should be encouraged. I appeal to industry members to help in organising camps, set up CCCs and donate ambulances," he said.

Pointing at why the second wave will be more lethal than the first, Dr C N Manjunath, Director of Jayadeva Institute of Cardiology and member of Covid's Technical Advisory Committee, said that it is not the virus that is spreading, but people who are helping the virus spread. The (day's) positivity rate is now in double figures, which was not the case even during the peak of the first wave. The doubling rate has come down, which means the number of cases is doubling in just four to five days," he said, adding that one cannot think of another lockdown as a solution to contain the spread, but one needs to balance between Covid management and commercial activity.

He requested the FKCCI members that they should send out circulars to workplaces that if any employee or his/her family members complain of fever or body ache, they should be asked to avoid coming to office and get themselves tested for Covid-19.

Mango export may take a hit this year

BOSKY KHANNA @Bengaluru

THE most awaited fruit of the summer season — the mangoes — are here. But this year, they have become more dearer. Also, for the first time, export is likely to dip due to the high cargo rates.

According to officials from the Karnataka State Mango Development and Marketing Corporation Ltd, cargo rates have been hiked, making export unviable for farmers. Corporation Chairman K V N Nagaraj told *The New Indian Express*, "Cargo rates now work out to Rs 250 per kg. It has increased by Rs 100 and the farmer has to bear the cost, which they are not ready to do so. The price, at present, for one kg of Alphonso from Ramanagara costs Rs 200-250 and Kesari is Rs 150. So, no one is keen to bear the high charges."

During this time of the year, the state caters to the rising demand of mangoes from the Gulf. The most demand comes from Saudi Arabia and other Middle Eastern countries.

Nagaraj said the board is a mere facilitator between farmers and buyers and that there is little the board can do. "To make up for the loss of export, the board is now concentrating on increasing local orders and supply to factories for pulp, juices and other products. Also, this year, there will be more focus on supplying mangoes to domestic markets."

Last year, due to Covid-19, most sales were online and farmers had sold 100 tonnes in Bengaluru through the board's online portal. Also, around 600 tonnes were sold by partnering with apartment associations. Nagaraj added that they were expecting the production to be 14 lakh tonnes this year, but due to the rains, the production is likely to see a dip by 4-5 lakh tonnes.

Book orders online

The Board on Thursday announced that mangoes can be booked through its portal- https://www.karsirimangoes.karnataka.gov.in. "Farmers have been given access so that they can directly receive orders and supply them to consumers, for a fee. Supply and bookings through post offices will also be done. Apart from the state government entering into MoUs with private firms for supply, the Board is also partnering with private firms," he said.

DIAL 1912 FOR COVID ADVICE

BBMP-Bescom helpline to address issues of patients

EXPRESS NEWS SERVICE @Bengaluru

BBMP Chief Commissioner Gaurav Gupta on Thursday said the corporation had partnered with Bescom, and dedicated 30 lines of the helpline 1912 for Covid-19 redressal.

He also announced the launch of more Covid Care Centres (CCCs) in all eight zones, apart from the existing two -- Haj Bhavan and HAL Command and Control Centre. BBMP has dedicated three electric crematoriums, in addition to the existing four, for Covid-19 patients only.

Speaking to the media at the launch of the new helpline for Bengaluru, Gupta said 15 lines of Bescom's call centre will be used, and 15 more lines from BBMP will be added to this. This is apart from the Apthamitra helpline and medical emergency numbers 108 and 104. Zonal contact numbers for bed allocation have also been launched, and people should make the most of this information, he advised.

Gupta explained that at call centres, patients are counselled, and based on their medical condition, they are prescribed home isolation, CCC, government or private hospital. They are guided to doctors and zonal officials, based on requirement.

On high rates being charged in crematoriums, Gupta said the rates are fixed and no additional charges can be levied. He warned of stern action against those demanding more money. Gupta also clarified that government ambulances are free and BBMP has outsourced 260 private ambulances, which are also free. Ambulances are also stationed in all wards, and an ALS ambulance will be stationed in each assembly constituency, and will be attached to government and private hospitals.

| EXPRESS ILLUSTRATION

There are 49 hearse vans, Gupta said, adding that he was not aware of private hospital packages, and this is being addressed.

Zonal control rooms have been set up in each ward and teams deployed to work on contact tracing and telemedicine, and will also look into CCCs. He said that every day, beds in private hospitals are being added for Covid-19 treatment, and so far, 6,000 beds have been identified in private hospitals. On Thursday, 2,500 beds were added – while 2,000 beds were allotted, 600 are vacant. There are 33 containment zones in Bengaluru.

FOR COVID DEAD

Daily Starscope

PETER VIDAL

16th April: The universe is a weird old place, that's for sure. I've told you before that every cell, atom and molecule in your body was once inside the Sun. Not only that but they have all passed through at least two previous stars. And, before that, we were all part of a universe the size of a grapefruit which existed before the big-bang. When mystics say that we are all star-dust, they're not joking!

ARIES (Mar 21 - Apr. 20)
It is difficult to be specific about Ariens' fortunes. Some of you are in considerable upheaval, others are relishing the prospect of increasing stability. Deep questions on a relationship should not be swept under the carpet, but don't jump to rash conclusions either.

TAURUS (Apr. 21 - May 21)
Now that Venus has a direct role in personal choices, you have entered a period when you may abandon your former secrecy. Shed reluctance to discuss intimate personal ambitions with people who are closely involved. In future, you must deal with the plain facts.

GEMINI (May 22 - June 21)
You have good cause to hope that long-running financial questions are about to face some resolution. Any settlement now must by definition be temporary and a stage on the path to the final denouement. It could all be linked to a major new ambition.

CANCER (June 22 - July 23)
The planets are playing out a mythological drama in your sign. In your partnerships both now and in the near future you will be faced with a choice of two distinct roles to play, leader or follower: will you give the orders or obey them? You'll know soon enough.

LEO (July 24 - Aug. 23)
Why is it that you are so deeply conditioned into imagining that you deserve a long rest? You had better deal as resolutely as possible with any and every problem, however trivial, which comes up today, especially if you can throw money at them.

VIRGO (Aug. 24 - Sept. 23)
In the past, you though when others come to their senses everything would be straightened out. Colleagues will persist with independent ideas for a long time. It's all to do with the Moon, which means that you can successfully solve such problems.

LIBRA (Sept. 24 - Oct. 23)
Everything about this time of the year is symbolised by Mercury, a rich planet that makes your ideas flow so vividly. Just remember that organisation and self-discipline are virtues to be cultivated if your high-minded plans are to be implemented.

SCORPIO (Oct. 24 - Nov. 22)
Apart from the fact that this is an ideal time to travel, the astrological message is simple and straightforward. You must give free rein to the side of your nature which lives according to ideals and deeply-held beliefs, and try to establish a personal meaning to life.

SAGITTARIUS (Nov. 23 - Dec. 22)
It is perhaps surprising to others that you often undervalue yourself. The sooner you realise such self-effacing attitudes are nonsense, the better. Family pressures begin to build up, but your fantasies could show the way forward.

CAPRICORN (Dec. 23 - Jan. 20)
Under one particular planetary formation you have begun to wonder if others really care about you. Yet, people genuinely do appreciate all the sacrifices you have made. They'll tell you soon, so wait for the right time for the right words to come.

AQUARIUS (Jan. 21 - Feb. 19)
A curious aspect to Mercury indicates there may be misunderstanding or friction over exactly who is responsible for final arrangements. Any disputes should be quickly resolved, but it may be necessary to put your money where your mouth is!

PISCES (Feb. 20 - Mar 20)
Happily, one more planet has now been added to the list of those that are beginning to add depth and meaning to your existence. Little by little life must and will improve; there is no alternative. What's even better is that the lunar cycle is offering active support.

Hospitals in dilemma as Covaxin demand outstrips supply

RANJANI MADHAVAN @ Bengaluru

HOSPITALS in Bengaluru could face a shortage of Covaxin doses in the coming days, throwing a spanner in the government's Covid-19 immunization drive.

Hyderabad-based Bharat Biotech has not been able to keep pace with demand for the vaccine, which has gone up in Bengaluru after after Chief Minister B S Yediyurappa and Health Minister Dr K Sudhakar took Covaxin last month.

"We started administering Covaxin around the end of March. Soon, 28 days will be over for the first set of beneficiaries. Unless supply increases, we won't be able to cater to new beneficiaries as well as the ones who are to get their second shot. Whom should we prioritise?" said a doctor who works at a government hospital requesting anonymity.

The administration of the second dose will begin in around the third week of April. While Covishield, manufactured by the Serum Institute of India for use in India has an eight to 12 week gap between doses, the interval is much shorter – 28 days – for Covaxin.

The doctor said that for now, health staff would administer doses on a first-come-first-serve basis, but this would mean that several people would be left out.

K C General Hospital has not received doses of Covaxin for 3-4 days, due to which, doctors are only administering the vaccine to beneficiaries who walk in for their second dose. People who are turning up for their first shot are being given Covishield.

Each day, around 300-400 people turn up at K C General for the vaccine. The hospital is hoping that Bruhat Bengaluru Mahanagara Palike will replenish their supply of Covaxin.

Victoria Hospital too is in the same situation. "We have only three days' of Covaxin stock left. We have asked for more and unless the government sends it to us, it will be difficult to give both the first and second dose to beneficiaries. We need the next batch by Monday at least as we are vaccinating 200-300 people every day," said a doctor who works at Victoria Hospital.

Health Commissioner Dr Thrilok Chandra said that the state had received two lakh doses of Covaxin on Wednesday which will be distributed proportionately across all districts.

Nodal officer to check on supply of drug

CHETANA BELAGERE @ Bengaluru

AFTER several reports about shortage of Remdesivir and its sale in the black market, the State government on Thursday appointed a nodal officer to facilitate supply of the injectable drug, vital for the treatment of Covid-19.

Kempaiah Suresh, Deputy Drugs Controller, is in charge of facilitating supplies meant for privately admitted patients in private hospitals, and his telephone number has been shared with the public.

Meanwhile, Home Minister Basavaraj Bommai warned of stringent action against those creating false scarcity of the drug.

"The Karnataka Health Minister has already said there is no scarcity of Remdesivir in the state, but a false scarcity has been created," he told the media.

Reacting to reports of the injection being sold at high prices, he said, "The government has taken up the matter seriously and will initiate stringent action against those making a fast buck by creating false scarcity and black marketing this important drug."

"We will keep track right from pharmaceutical firms to hospitals, and initiate action under the Epidemic Act," Bommai added. Meanwhile, doctors have warned against prescribing this injection for all Covid-19 patients.

Dr CN Manjunath, member, Techincal Advisory Committee for Covid-19, told TNIE that the drug is being rampantly prescribed, and people have developed the impression that the anti-viral will save lives. "People should not pressure doctors to use Remdesivir," he added.

Med store owner wants probe into Remdesivir black market

He complained against Drug Control officials for not looking into issue

RANJANI MADHAVAN @ Bengaluru

HARSHA Medicals and General Stores, a unit of MS Ramaiah Harsha Hospitals in Nelamangala, Bengaluru, wrote to Union Minister of Chemicals and Fertilisers Sadananda Gowda, Chief Minister BS Yediyurappa and other officials on Thursday, complaining about Drug Control officials black marketing Remdesivir.

The managing partner, S Shivakumar, said a vial of Hetero brand was being sold between Rs 15,000 and Rs 25,000, as opposed to the government-capped price of Rs 1,500 to Rs 2,000. He complained against Drug Control officials for not looking into it, and sought an investigation into the issue.

"I am apologetic to inform you that C and F (Clearing and Forwarding) agents and wholesale dealers are not supplying Remdesivir injections required for Covid treatment. The drug effectively helps in saving lives and also reduces Covid deaths," an excerpt of the letter stated.

A woman undergoes a Covid test at Mysuru Satellite Bus Terminal on Thursday | VINOD KUMAR T

The letter claimed that they have been asking about injection stocks for the past 10 days, but had not got a reply. "I was made aware of the fact that certain people are selling the injection in the black market. Hence, kindly enquire and verify about other batches of the injections as well," he added.

Shivakumar told TNIE said he received only 12 vials in the past 10 days at his medical store. He said he had complained to the Assistant Drug Controller (ADC) about the black market three days ago, but received no response.

"Are Drug Control officials hand-in-glove with the agents? They are not willing to solve the problem. I have documents with me and can share them with police if they investigate," Shivakumar added.

He also addressed the letter to Additional Chief Secretary of Health and Family Welfare department Jawaid Akhtar, Chief Secretary Ravi Kumar, Karnataka DG and IGP Praveen Sood, Health Minister Dr K Sudhakar and Bengaluru Commissioner of Police Kamal Pant.

CASES RISING

Sudhakar warns pvt hospitals for failing to reserve 50 per cent beds

TAC report to CM

The Covid-19 Technical Advisory Committee will be submitting its report on increasing cases and containment measures. The report will be handed over to Chief Minister BS Yediyurappa and he will take a decision after a detailed discussion with leaders in an all-party meeting.

We understand the plight of students. They are permitted to work elsewhere till they are recruited. They have been asked to get clearance from the legal department as well

Dr K Sudhakar, Minister

EXPRESS NEWS SERVICE @ Bengaluru

"STRICT action will be initiated against hospitals — government and private — that do not abide by the government's orders of reserving beds, and who do not cooperate with the government," Health and Medical Education Minister Dr K Sudhakar said here on Thursday.

Currently, 300 beds are available in Victoria Hospital for Covid patients, which will be increased to 500 shortly. As many as 300 beds in Bowring Hospital, 150 in Charaka, 100 in HSIS Gosha and 100 beds in KC General Hospital will be reserved within two weeks.

"Only critical non-Covid patients who need hospitalisation should be treated in hospital. The government cannot keep quiet if Covid patients are denied treatment. I am appealing to private hospitals to cooperate with the government. Rajiv Gandhi Institute of Chest Diseases has been reserved for Severe Acute Respiratory Infection and Influenza Like Illness related cases," said Sudhakar, adding that private hospitals can arrange Covid Care Centres at hotels.

As many as 400 doctors have been transferred from the medical education department to the health department. The minister said he discussed the issue of overburdened crematoriums with the BBMP commissioner. At least 14-15 fatalities were reported on Wednesday and all of them were sent to a single crematorium, since they were Covid cases. That is the reason for congestion, he clarified.

Speaking about the KMC registration issue of MBBS students, he said that rural service is mandatory for all medical students.

PUBLIC NOTICE

This is to inform to the General Public that, my client Sri. MALADHRI, S/o. Subbaiah, Residing at No. 109, Lakshman Building, 7th Cross, Kala Nagar Main Road, Jalahalli East, Kammagondanahalli, Bengaluru - 560 015, has lost the Original Sale Deed, Dated: 15.06.1978, from Aswathappa in favour of the Purushotham, registered Bengaluru North Sub- Registrar, Document No. 1031/1978-79, Book-I, Vol-3080, pages 166 to 169. Tension gripped Hunasamaranahalli after a miscreants threw stones at a KSRTC bus on Airport Road in the early hours on Thursday. Chikkajala police registered a case and are on the lookout for the accused. Police suspect that it was done intentionally

AFTER VOTING, COVID CONTROL WITH RANDOM TESTS

Among the three election-bound districts, Bidar is reporting a high number of cases | In Basavakalyan constituency, KPCC working president Eshwar Khandre tested positive | Webcasting facility, micro-observers and videographers arranged at poll booths

State BJP unit president Nalin Kumar Kateel, Home Minister Basavaraj Bommai, Housing Minister V Somanna participate in a road show at Basavakalyan on Thursday, the last day of open campaign | EXPRESS

EXPRESS NEWS SERVICE @Bengaluru

AS the high-voltage campaigning for the April 17 bypolls to two Assembly segments and the Belagavi Lok Sabha seat ended on Thursday and focus shifts to door-to-door canvassing, large gatherings and road shows held over the last few days are now under the scanner as they are likely to add to the surge in Covid-19 numbers and slow down efforts to contain its spread in the state.

The State Health Department will be conducting random tests in Belagavi Lok Sabha constituency, Maski (in Raichur) and Basavakalayan (in Bidar) Assembly segments after April 17 to assess the situation. "We will come to know about the impact (of big gatherings during electioneering) after a week or ten days. Intensive tests will be done in those places after the elections to assess the situation," a senior officer in the Health Department told The New Indian Express on Thursday.

If the number of public meetings and road shows attended by a large number of people is anything to go by, the situation looks grim. Guidelines issued by the Election Commission and the Health Department to contain the spread of the viral infection were barely followed at most of the rallies. Several senior leaders, including Chief Minister B S Yediyurappa, party president Nalin Kumar Kateel, Congress leaders Siddaramaiah, D K Shivakumar and JDS leader H D Kumaraswamy campaigned for their party candidates in the bypolls. Even on Thursday, most senior leaders took part in road shows.

Among the three election-bound districts, Bidar is reporting a high number of cases. On an average, 280-plus cases were reported daily for the last seven days. On Thursday, the district reported 363 new cases. Belagavi and Raichur are reporting around 60-80 cases a day for the last few days. On Thursday, Belagavi reported 135 cases and Raichur 48.

Raichur Deputy Commissioner R Venkatesh Kumar said they are conducting around 2,500 tests per day. "After the second wave started, we have issued a direction to ensure that for each positive patient, we test 50 contacts and we are ensuring that a minimum of 30 contacts are tested." The district administration booked over 40 cases for for violating Covid norms.

> **Testing targets have been given to the districts, and if there is an increase in cases, testing too will be increased. Bidar was reporting a high number of cases even before electioneering started**
>

Cash flow: BJP demands action against Cong leaders

Bengaluru: BJP General Secretary and MLC N Ravi Kumar on Thursday urged the Election Commission (EC) to take action against Congress leaders for allegedly distributing money to voters in Maski. He alleged that Rs 2,000 each was given to some voters. "The EC must order a probe into the distribution of money," Kumar said, and released video fof a person allegedly distributing money. Meanwhile, Congress leaders urged EC to take action against a police sub-inspector who allegedly helped local BJP leaders transport money in the constituency. ENS

Pandemic throws shadow over bypoll campaign

RAMKRISHNA BADSESHI @Kalaburagi

WITH campaigning coming to an end for the bypolls to Maski and Basavakalyan on Thursday evening, the fear is that these two constituencies may have gifted Covid-19 to senior leaders who campaigned here. Polling is scheduled for Saturday, and counting is on May 2.

BJP candidate for Maski (ST-Reserve) Prathapgouda Patil who tested positive, requested his followers through a video message to undergo RT-PCR test if they were in contact with him. He expressed his inability to campaign, and isolated himself. He will be in isolation on the day of election too.

Deputy Chief Minister Govind Karjol, who campaigned in Maski, tested positive and is under treatment for the second time in a year. Surpur MLA G Raju Gowda, who also campaigned in Maski, has tested positive. BJP National General Secretary Arun Singh and CM B S Yediyurappa campaigned for their candidates Sharana Salgar in Basavakalyan and Prathapgouda Patil in Maski.

In Basavakalyan constituency, KPCC working president Eshwar Khandre, entrusted with the task of leading the campaign, tested Covid-positive a few days ago. While this is the story of leaders, it is not known how many of their followers tested positive later.

BJP state vice-president B Y Vijayendra and Social Welfare Minister B Sriramulu camped in Maski for about 10 days, Home Minister Basavaraj Bommai, Housing Minister V Somanna and Transport Minister Laxman Savadi spent most of their time campaigning in Basavakalyan.

Former Chief Minister H D Kumaraswamy and senior JDS leader Bandeppa Kashampur also campaigned continuously for a week in Basavakalyan.

Senior Congress leaders and public representatives formed groups to look after campaigns in 38-40 villages in Basavakalyan. Big leaders like AICC General Secretary Randeep Surjewala, Opposition leader in the Rajya Sabha Mallikarjun Kharge, former CM Siddaramaiah, KPCC president D K Shivakumar and others too campaigned for their candidates Mala B Narayana Rao in Basavakalyan and Basavana Gowda Turvihal in Maski.

Distributing money to woo voters created a buzz in Maski, with the authorities filing 14 complaints of election malpractice, and arresting four BJP activists.

Fadnavis tours Belagavi, lashes out at Shiv Sena

SUNIL PATIL @ Belagavi

Former Maharashtra Chief Minister Devendra Fadnavis addresses people at Gokul Nagar in Hindalaga, Belagavi on Thursday | EXPRESS

ON the last day of canvassing for Belagavi Lok Sabha by-election, former Maharashtra Chief Minister Devendra Fadnavis held a whirlwind last-minute campaign in support of BJP candidate Mangala Angadi. Lashing out at Shiv Sena MP Sanjay Raut, Fadnavis called upon the Marathi people to teach a fitting lesson to the Sena, which is targeting the BJP by taking the help of Maharashtra Ekikaran Samiti (MES) in the by-election.

The BJP got Fadnavis to campaign in Belagavi in a bid to attract the sizeable Marathi voters in Belagavi city and rural areas. Fadnavis inaugurated the open meet by watering a plant at Gokul Nagar in Hindalga, in the presence of BJP leaders. He said that Sanjay Raut has come to Belagavi to target 'Hinduism' in the name of language, and Marathi speakers should teach him a lesson for playing "language politics".

"The present Shiv Sena has converted the name of Balasaheb Thackeray to 'Janaab Thakaray' and is going to make Tippu Sultan a hero. Maratha voters are tigers and should not be lured by the Shiv Sena," exhorted Fadnavis.

Union minister Pralhad Joshi praised Fadnavis, saying he had given a transparent government in Maharashtra, and the Union government has given priority to corruption-free administration.

Industries Minister Jagadish Shettar, Food and Civil Supplies Minister Umesh Katti, Mines and Geology Minister Murugesh Nirani, MLAs Anil Benake and Abhay Patil, and other BJP leaders were at the rally.

Chief Minister BS Yediyurappa participates in road show | EXPRESS

Despite fever, CM campaigns at Mudalagi

CONTINUED FROM PAGE 1

EARLIER, the Chief Minister consumed homemade lunch brought to the hotel from the residence of late Suresh Angadi.

BJP leaders pointed out that despite not keeping well, the CM had participated in campaigning at Mudalagi and Gokak. He had even visited mutts of the Lingayat community in Belagavi Lok Sabha constituency on Thursday morning and then participated in the road show in the scorching summer heat.

After the CM left the hotel, the campaign rally continued in Shahapur and other areas, led by Union Minister Pralhad Joshi, state Industries Minister Jagadish Shettar and MLA Abhay Patil.

The CMO sources said the CM will rest for two days on Friday and Saturday, and will chair an all-party meeting in Bengaluru on Sunday evening to discuss the government's strategy to fight the pandemic and seek views from the Opposition leaders.

Yediyurappa had tested positive for Covid-19 and was hospitalised for a week last year.

1,01,340 MALE | 1,05,076 FEMALE | 13 OTHERS

2,06,429 TOTAL VOTERS

305 polling booths identified

EVMs prepared for polling day

MASKI ALL SET FOR BALLOT

EXPRESS NEWS SERVICE @ Maski (Raichur dist)

THE Raichur district administration has made all arrangements for the smooth and peaceful conduct of bypolls to Maski assembly constituency on Saturday, Raichur Deputy Commissioner R Venkateshkumar, who is also District Election Officer, said here on Thursday.

Venkatesh Kumar told the media that prohibitory orders under Section 144 CrPC have been clamped across Maski constituency from Thursday evening, banning unlawful assembly and holding of public gatherings. However, this doesn't restrict house-to-house visits. No loudspeaker is permitted to be used during 48 hours before closing of polling.

The DC also said that political functionaries who are not voters of the constituency, should leave as campaigning is over. Dry day has been declared in Raichur district from Wednesday evening, with a ban on the sale and transport of liquor.

Proper training has been given to PRO/ APROs for polls. Webcasting facility, deployment of micro-observers and videographers has been arranged in all critical polling stations and vulnerable areas, he said.

Mustering and de-mustering has been arranged at Devanampriya Ashok Degree College of Maski. Mustering will commence at 8am Friday, polling would be held on Saturday and counting of votes will be held at SRPS PU College Raichur on May 2, he said.

As of April 15, a total of 60 complaints were received -- 46 for Covid-19 violations and 14 for violation of model code of conduct. Seven cases were booked for violations, and FIRs registered, Venkateshkumar said.

COMMITTEE TO CHECK FAULTY DRINKING WATER UNITS

Bengaluru: A joint select committee headed by Thirthahalli BJP MLA Araga Jnanendra has been constituted to study the alleged irregularities in installing drinking water units at rural areas. The committee will study guidelines and parameters that were violated while installing these units since 2013. It may be noted that over the years, legislators have complained about the malfunctioning units. They also said that sometimes, even though power connection was not supplied to these units, bills were generated. They will also check on the measures taken to restart these units. ENS

MIN DIRECTS DCs TO IDENTIFY LAND FOR GOSHALAS

Bengaluru: As the state government is planning to set up goshalas in every district, they are in search of suitable land to build cow shelters. Earlier, Animal Husbandry Minister Prabhu Chauhan had announced one goshala in every taluk, but due to fund crunch, the state decided to start one in every district. Sources from the department told The New Indian Express that the minister has directed deputy commissioners to identify government land that has green patches and are suitable for grazing. "Officials are designing the goshalas. Within a week's time, we will get to know how many cows can be accommodated in each one," an official said. At present, there are 159 goshalas in the state and most of them are run by private organisations or temples. Now, 31 more will be constructed. Meanwhile, some farmers complained about a shortage of fodder and minister assured that he will direct officials to ensure availability. ENS

END TO IMPASSE

Yash invokes dad's travails, empathises with striking transport employees

EXPRESS NEWS SERVICE @ Bengaluru

KSRTC employees on a candlelight vigil in Gandhi Nagar, Bengaluru | EXPRESS

POPULAR Kannada actor Yash on Thursday took to social media to empathise with the employees of the four state-run transport corporations who are on an indefinite strike, but he also appealed to them to end the strike. The 'Rocking Star' also appealed to the State Government to resolve the employees' issues.

In a letter addressed to the Karnataka State Transport Employees' Federation, which he posted on a social media platform, Yash said that he understands their problems since he too is the son of a transport corporation bus driver. He recalled instances of his father rushing through breakfast early in the morning and reasoning that if he got late, then many of his passengers would miss their trains or would get late for their work. He said that this would not just not be his memory, but that of many other families also. And citizens are witness to this dedication of the drivers also, he quoted.

He wrote that he is aware of issues like low wages, lack of leaves and holidays, long working hours and overtime. The difficulties of the state and that of the citizens, who are facing hardship due to lack of public transport, are also to be taken into account. "I have made an attempt to reach out to Transport Minister Laxman Savadi to help him understand the difficulties faced by the transport employees. What was comforting was the level of knowledge the minister had about the issues plaguing the transport employees. He has given me an assurance that he will speak to the Chief Minister and address the issues, most importantly salary disparity," Yash wrote.

He also stated that creating a new problem is not the solution to an existing problem and that an open mind and honest talks will throw up a solution. He also appealed to the employees to leave behind all dissent and move forward with cooperation.

In the meantime, the unions continued with their agitation. Some miscreants also damaged buses as early as 6 am in Yelahanka. In some places, the union members and striking workers held candlelight protests to draw the attention of the government and citizens.

According to transport department officials, the operations at 7 pm were 2,006 KSRTC buses, 707 BMTC, 786 NEKRTC and 664 NWKRTC buses, accounting for a total of 4143 buses operating. The transport department also filed 31 FIRs against 110 employees.

MLA demolishes burnt house, begins construction

BALA CHAUHAN @Bengaluru

NINE months after his house in Kavalbyrasandra was torched by a mob of over 2,000 rioters, Congress MLA of Pulakeshinagar Akhanda Srinivasa Murthy has started construction of a new house at the same site.

Murthy told TNIE that he had his semi-burnt house demolished and started constructing a new house. "My family and I have suffered a lot in the last nine months. We have been living with relatives after my house was burnt down," he said.

The MLA rued the fact that he got no support from KPCC President DK Shivakumar, despite several appeals and personal meetings with him. "The KPCC President has been supporting former mayor and corporator Sampath Raj, who was arrested last year for his involvement in the case. I have, however, received consistent moral support from former chief minister Siddaramaiah," Murthy said.

He said he will shortly seek an appointment with the Congress high command to draw attention to the injustice done to him by Shivakumar.

Raj, who was DJ Halli ward corporator when the riots broke out on August 11, was arrested for allegedly playing a key role in instigating others to set fire to Murthy's residence.

The High Court-appointed HS Kempanna Committee had inspected his house two months ago, he said. Justice Kempanna, a retired High Court judge, was appointed last August as Claims Commissioner to assess the damage caused to public and private properties during the DJ Halli and KG Halli riots in which the MLA's house was burnt down. The Central Crime Branch had arrested more than 400 people in the arson which had damaged DJ Halli and KG Halli police stations, and public and private properties, after Murthy's nephew P Naveen had allegedly posted a sacrilegious post on social media.

Three people had lost their lives in police firing. The CCB had filed a preliminary chargesheet, naming Raj and Congress corporator A R Zakir. The National Investigation Agency, investigating the violence, had in its chargesheet submitted in February, stated that riot was pre-meditated.

Former MLA acquitted in Skyye case

Court says prosecution failed to prove case in which Kashappanavar is second accused

M G CHETAN @Bengaluru

FORMER Congress MLA from Hungund, Vijayanand S Kashappanavar, and another person, who were accused of assaulting two police constables at an upscale pub in UB City back in 2014, were acquitted by a city court on Thursday.

Kashappanavar was named accused number two, while his associate R G Somashekar Gowda alias Somegowda was named the prime accused in a case registered at Cubbon Park police station on July 2, 2014. Constable Kiran Kumar S C, the complainant, had alleged that he, along with another constable, Prashanth Nayak, had gone to Skyye, a bar in UB City, following a complaint that it was open beyond permissible time of 1 am. Kumar started recording a video with his mobile phone, and Kashappanavar, who was an MLA then, snatched his phone, assaulted him, and abused him using foul language. The investigation into the case was handed over to the CCB, which had submitted a charge sheet to the court against the duo.

The special court for criminal cases related to elected MPs/MLAs conducted the trial in the case. The 81st Additional City Civil & Sessions Judge, T N Inavally, in his judgment, stated that there is absolutely no documentary evidence from the prosecution to show that the constables visited the bar on that day.

The court observed that the prosecution had failed miserably in proving the case and had failed to bring on record before the court the video recorded by the constable or the CCTV footage from the bar, which would have been the best evidence to prove the alleged incident. It also noted that two CDs containing CCTV footage did not read when played before the court and it was interesting that the constable's mobile phone was seized and produced in the case. The court also said the footage failed to prove the presence of the accused at the bar.

It was also observed that there was absolutely no material to show why Kiran Kumar, being on duty on Beat No. 5, went to the spot, which falls under Beat No. 3, even though there were constables on that beat. "As per his (Kiran Kumar) evidence, and the Station House Diary, the names of the accused are mentioned but, strangely, he did not mention the names of the accused before the doctor while giving the history of assault," the court noted.

"Except the evidence of the two constables, the evidence of other witnesses, who are police officials, are not in accordance and there are discrepancies. There are absolutely no independent witnesses forthcoming from the prosecution to prove the alleged incident, which is said to have been occurred after 1 am. The bar staff have deposed that it was closed at 11.30 pm. Moreover, failure on the part of the investigating officers creates doubt regarding the alleged incident itself," the court said.

> **When the prosecution has failed to prove that the accused persons were present at the bar, the question of the accused preventing the complainant or any other officials from discharging their official duty does not arise**
>
> Judge T N Inavally

HC QUESTIONS NOMINATION OF VIP KIN, SCRIBES TO WILDLIFE BOARD

EXPRESS NEWS SERVICE
@Bengaluru

THE Karnataka High Court issued a notice to the state government, Karnataka State Wildlife Board and others on a Public Interest Litigation (PIL) questioning notification issued to re-constitute the Karnataka State Wildlife Board and nomination of certain individuals to the Board.

A division bench of Chief Justice Abhay Shreeniwas Oka and Justice Suraj Govindaraj was hearing a petition filed by GM Bhoja Raju, a resident of JP Nagar.

The petitioner questioned the notifications dated October 16, 2020, which was issued to re-constitute the Board and nomination of 10 individuals including Alok Vishwanath, son of BJP MLA SR Vishwanath and two journalists.

The petitioner contended that the re-constitution contravenes the very provision under which the state government exercised discretion. Also, it said that none of the 10 people nominated have the 'eminence' either in conservation, ecology and environment. This apart, there is no representative amongst the 10 nominated to represent the interests of Scheduled Tribes, as required under the law, the petitioner claimed.

The petitioner contended that the 15th meeting of the board, which was the first meeting of the newly-constituted board, was held on January 19, 2021 in the presence of a special invitee BJP MLA SR Vishwanath, in violation of the Karnataka State Board for Wildlife Rules.

Four, including minor, held for reckless driving

Bengaluru: KR Puram traffic police on Wednesday caught four youths, including a minor, for performing wheelies on the Bhattarahalli Junction on Hoskote Road. The bikers Yaseen (18), Mubarak (20), Umar (18) and a minor, work as mechanics and vegetable vendors. A senior police officer said around early morning, traffic police constable Somappa K saw four people riding two scooters with modified silencers and they were not wearing helmets. They were performing wheelies and creating fear among fellow motorists. **ENS**

Jakkur flying training school to get makeover under PPP

Bengaluru: The Government Flying Training School in Jakkur will soon get a makeover, complete with hi-tech facilities, under a public-private partnership, said Sports Minister K C Narayana Gowda. The training school will be developed on par with private schools and a proposal on this will be kept before the cabinet for approval, Gowda said. "A couple of private players have come forward to train 100 candidates each year. They will also include activities like para-gliding," he said. **ENS**

No. NSSK/Purchase/ Off-Season/43/2021-2022 Date: 15-04-2021

NOTICE INVITING TENDER

Sealed tenders are invited from the manufacturers, authorized dealers and traders for supply of following materials and also job work required for the off-season 2021-2022 of our factory.
The brief specifications of the materials/job works are as under;

SL. NO	Particulars.
I(a)	**Engineering Department (Sugar Plant) :** **SUPPLY : Mill Section Spares –** Chain & Chain spares, Scrapper Plates & Trash Plates, Polymer Self lubricated Teflon, Cane Chopper Leveler Knives, Swing type Fibrizor tips with Hammers, Thrust Teflon Wheel, SS Nozzles, Cane Carrier slats (MS), Anvil plate for Fibrizor, CS Fabricated pedestal, Return & Impact idler, G.I. Wire rope, Cane unloader spares, Mechanical General goods, Valve Lapping Compound, Emery Cloth, H.P & LP Jointing Sheet, Gland packing, Mech Seals, Welding Electrodes Materials & Accessories, Pipes & Fitting, Spary Pond PVC Spares, SS Tubes, Tube Expanders, Valves, Iron & Steel Hardware Materials, Khalasi Materials, Workshop Tools & Tackales, Rubber Goods, Centrifugal & Sugar Handling Equipments, Belt Conveyor Spares, Sugar bag stacker spares, Pumps & Pump spares, Oil & Lubricants, Industrial Paint & Brushes, Fire & Safety materials, Bearings, Couplings & Oil Seals, & "V" Belt.
b)	**JOB WORK : Supply & Servicing Job work at Site (Mill Section)** Lincon Make Mill Centralized Lubrication System spares, supply, servicing & overhauling work, Ultrasonic testing & stress reliving work of Mill Roller shafts, ID,FD, SA Fans etc work, & AMC of site balancing work Fiberizor, ID/FD/SA Fans etc, Belt jointing job work of various sizes in plant Size-350mm /600mm/650/1600mm /2000mm, Repair and reconditioning of our existing cooling tower, Re shelling, Re grooving & Grooving, Lotus Type, arcing chevaron cutting work of various Mill Rollers
c)	**GENERAL FABRICATION & ERECTION WORK (Common Rates to be finalized)**
d)	Dismantling, Fabrication & Erection of M.S. & SS Pipe line and Dismantling, Fabrication Erection of M.S. Flat forms etc.,
e)	**Various job works of repairs to be carried at Outside.** A) Testing, refilling & repairs of hydraulic accumulators. B) Servicing/Overhauling//repairs of hydraulic power pack & panel boards etc., Mill No. 2,3,& 4 hydraulic caps- 6 Nos. servicing & overhauling drain nipples to be made common for all hydraulic cylinder, Mill No.1 & 5 Ulka (42" X 84") & 40" X 80") hydraulic cylinders -4 Nos servicing & overhauling, Cylinder drilling, tapping welding for UlKA Cylinders, Piston for ULKA/ TEW Cylinders, Cane un loader capacity 10 ton gear box unit conventional type multi stage gear internals replacing work Qty-1 Unit, Gun metal bearings, bushes wedges etc., De-hooking system units servicing & overhauling 5 Nos, Rotating truck of trolly tippler table unit – Servicing and overhauling, Fibrizer unit- Hubs repair and reconditioning, FMG gear box repair and reconditioning, FMG gear box oil cooler repair and reconditioning & Mill roller hard facing work,
II)(a)	**Boiling House Job work outside Agencies (AMC)** Servicing & Overhauling of Ingersoll Rand make Air Compressors, Supply & Servicing Overhauling of KPTL make air blower, Supply and servicing ,Overhauling of pan Hydraulic discharge system, Supply and servicing, overhauling of Pans Hydraulic cut valves cylinders, Supply and servicing overhauling, of sugar bag stitching machine, FRP coating of CI Cross, SO2 Gas line (MS Pipes), Jointing of FRP pipe lines of size 500mm dia for Bagacillo line, Servicing and overhauling of PHE Unit.
b)	**Out –Side Repair Job.** 1. Dynamic Balancing of A,B.C. Centrifugal Machine Baskets along with bottom cone. Shaft and massecuite distribution cone and couplings, KCP -6 Nos, NHEC-7 Nos., and Thysden Krupp- 3 Nos. 2. Repair & Reconditioning of PSP make Gear Pumps Size: 6" X 6"-15Nos. 3) Repair and reconditioning of butterfly valve of size: 1200mm 2 Nos Dia 4) Repair and reconditioning of planetary gear box for ETP 3 Nos,
c)	**MANUFACTURING SECTION :** Supply & Job work for New Evaporator body of 450 M2-2 Nos, Reconditioning of vacuum filters a)14 X 28- 1 No, b) 8 X 16 – 2 Nos, 240 M2 Juice heater job work -1 No, Job work of External Painting work.
d)	**Job – work in Boiling House:** (1) Insulation and Aluminum cladding work for Boiling House equipments and Boilers. 2) Testing and Calibration of various types of pressure vessels, Lifting tools and Rotary Machines and Molasses tanks of our factory & 3) Corro coating for kirloskar pumps.
III	**CIVIL SECTION :** Supply & fixing of Doors for quarters. (Fiber and laminated doors with fixtures) **Job work:** ಕಾರ್ಖಾನೆಯ ಸ್ಟೇಪಾಂಡ, ಹಾಟ್ ಮತ್ತು ಕೋಲ್ಡ ವಾಟರ ನಾಲಾ ಹಾಗೂ ರಿಜರ್ವಾಯರದಲ್ಲಿರುವ ಗಾಳ ತೆಗೆದು ಸುಣ್ಣ ಹಚ್ಚುವ ಗುತ್ತಿಗೆ ಕೆಲಸ.
IV	**ETP PLANT (SUGAR):** Pump & Pump Spares, PVC Materials, Plastic Material, PH Booster cum anaerobic culture and ETP Chemicals. **Job work:** Design, Manufacture, Supply Fabrication, Erection and Commissioning for anaerobic digester (USBAR Technology) of 1500 m3/Day capacity of sugar ETP,
V (a)	**CO-GEN. PLANT (Mechanical) SUPPLY:** General Materials, Welding Accessories & Electrode, Paints, Gaskets & Joints, Turbine Materials, Lubricants, Oil Seals, Plumber Blocks, Couplings, Nut & Bolts, Baggasse & Ash conveyor materials, Various Tools, Travelling Grate materials, Soot Blower materials, Pump Spares, Boiler valves and boiler spares. Cooling Tower spares.
(b)	**CO-GEN JOB WORK :** AMC of Co-Gen Boiler ESP work, Servicing of Boiler Feed pumps -2 Nos Make Kirloskar Ebara Turbine HP and LP Valve Hydraulic Actuators Servicing, Servicing, Condenser Tube Cleaning work,. CEP Pump Servicing -1 No, Overhauling of Turbine and Gear box 18.14 MW., Boiler Safety valve servicing work, Co-Gen Boiler Tube External Cleaning, Re-blading of Co-gen Boiler ID Fans, Co-gen Plant feed pump Re-circulation and Balance leak of Line replacement work (IBR Work), DM Water storage tank FRP Coating.
VI(a)	**ELECTRICAL DEPARTMENT** **SUPPLY: (SUGAR /COGEN/DISTILLERY)** L& T & Siemens Make various spares, Philips/Havells Make Lighting materials, Cables – Finolex/Polycab/CCI , General Items, Cables Glands, Flange type cable gland, Earthing materials, "A" Centrifugal Machines, Cane Unloader Radio Remote Units with wireless control system. Lighting Materials –MCBs, /ABB Motors Terminal Plates, Rubber Mat for HT Panel, Aluminum & Copper Lugs, Ammeters AE Make, Transformer Spares, Control Transformer spares & VFD Drive spares, 3ph Panel mounted exhaust fans.
(b)	**Various Electrical Job works :** ABB and Formoplastic drive servicing, L&T Breaker servicing, Transformer oil filtration,Relay testing and calibration, 17/20 MVA Transformer OLTC Servicing, 11 HT Breaker Overhauling, ESP Controller/panel replacement/Retro, Power management (Elmeasure) Godown panel for 9 No, 5 Nos, 18.14 M.W. Generator re commissioning , 450 HP BFW Motor reconditioning, Fibrazer motor reconditioning, "A" Centrifugal PLC Replacement, 120 HP X 3 Nos. complete Panel for "B" Centrifugal,
VII (a)	**INSTRUMENTATION DEPARTMENT: (for Sugar, Co-gen & Distillery)** **Supplies:** Various Instrumentation spares of Mill. Co-gen Boiler RTD Sensor, Feedback Positioner, Turbine Exhaust steam temperature TE-106, Pressure Gauge with Glycerin Oil, TRIP Oil solenoid valve, Control oil Pressure Transmitter, Hot well Tank Level Switch, Solenoid valve, Turbine generator vibration probe, Temperature Gauge, Syphon & Cock (SS Material), Straight Connector pneumatics, Filter/Air Regulators seal kit, AC Machine Spares, R-22 Gas, Nitrogen gas, Power control board, Tools, RO Plant Pressure Gauge, Pressure Switches (RO Sec), Solenoid Valve with Coil, Solenoid valve coil: Make: Mercury. **Distillery:** Molasses Batch weighing Electronic system with load cell, Conductivity Transmitter with sensor, SMPS, Roto meters, Temperature Sensor, Air filter with regulator and Gauge, Electronic Hooter, Transmitter, MSDH Control valve spare kits, Three way shut off valve with spare kit, DCS Material, General Material, and Tools.
(b)	**INSTRUMENTATION JOB WORK: (Sugar, Co-gen & Distillery Plant)** Annual maintenance Contract (AMC) & Job work. Annual Maintenance contract for SMAR Brazil make DCS Panels of our Co-gen Plant. Annual Maintenance Contract for Avery India make cane weighbridges & platform weighting machines for the period of one year from 01-08-2021 to 31-07-2022. Annual Maintenance contract/Job work for Allen Bradley make PLC SCADA system of Mill, fan & 32TPH Boiler automation. 4) Job work for Siemens make PLC & SCADA system of Co-gen Turbine. Job works of Kenwood make Walky –talky sets repair/servicing. Job work for Allen Bradly make HMI based PLC (Micro Logix 1200) system of our RO plant, Boiler DCS Maintenance, 8) Distillery Maintenance & 9) Boiler Oxygen Analyzer Repair.
VIII (a)	**DISTILLERY PLANT. Mechanical Section:** **Supply** –S.S. Pipes & Fittings, Valves, Tools & Tackles, Pump Spares, Cooling Tower Spares, Welding Accessories, TG Set consumables, DP Kit, V-Belt, Paint, Boiler ID Fan Spares, Dosing pump spares, Boiler consumables, Mechanical Seal & Cooling water line spares, Pumps for Process and ETP Plant, Coal Handling System spares, Coal Belt conveyor & Ash Handling system spares, Plummer Blocks, ETP Air Blower, Coupling Rubber Star.
(b)	**Distillery Chemicals:** Dry yeast, Enzyme, TRO, **CIP Chemicals:** Caustic Lye, Nitric Acid, Bleaching powder, Formalin, Cooling tower chemicals & Laboratory Chemicals & Equipments.
(c)	**Job work Distillery Plant:** Boiler Feed Pump overhauling, Boiler refractory work, CP Compressor overhauling work, ETP Blowers overhauling work, Boiler Jet Cleaning work, Belt jointing work, All fans and crusher rotor dynamic balancing work, Boiler Safety valve servicing work, Fire fighting line work, Both ID Fans Top and bottom casings replacement and suction and discharge damage portion of ducts repair fabrication work, Boiler Chminey top and center round platforms strengthening work.
IX	**Co-gen Water Treatment Plant Chemical:** Pre treatment, Cooling tower, R.O. Plant & Boiler Chemical. **Basic Chemical:** Caustic soda Flakes, Hydrochloric Acid, Sulphuric Acid, Sodium Hypochlorite, Ferric Chloride, Sodium Meta bisulphate (SMB) and Common Salt. **Co-gen Material:** Mechanical Seal, RO Head Opening Tool, Hydrol 220 Oil, End cap with spacer, Chemical Cleaning tank, M Seal, Multi grade filter media Mixed sand (White) **Co-Gen Job Work:** Servicing of Miltonroy Dosing Pumps with spares & Erection and commissioning of existing ultra filtration system.
X	**Computer Department:** Key Board, Mouse, Various Cartridge, Indoor & Outdoor cat-6 & OFC cable, Pen drive, Thurmal roll paper, HP LJ Printer, Hard disk and Monitor and CPU with system.
XI	**CDO Section:** Plastic Tadpal, Harvesting Knives, Bamboo, Wire rope Sling, Bearing, Disc, Tyre & Tubes, Grease, Hub & Bolts,

For tender forms, details of specifications of each department's required supply of materials /job works and any other clarifications in this connection may contact the factory office and the interested parties may obtain **tender forms on payment of Rs. 1,000/- for each department material supply & Rs. 1,000/- job work for each department in the form of Cash only. (Note: The details specification of Tender Document will be available at the factory office)**
Terms and Conditions: 1)E.M.D. will be 2% of the quoted value of the material to be supplied/ to be carried the job work and should be enclosed with a tender form in the form of D.D.(of any Nationalised Bank only). EMD 2% Cheque not considered (2) Conditional Tender will not be considered. (3) Factory reserves the right to accept or reject the tenders in full or part without assigning any reasons. **(4)Tender forms will be issued from: 16-04-2021 to 10-05-2021 (5) Last date for submission of tender form is 15-05-2021 during the office working hours upto 5-30 PM** (6) Date of negotiation will be intimated separately. (7) All the authorized dealers have to provide complete product specifications catalogues with Dealers Valid Certificates without fail.

MANAPPURAM FINANCE LTD.

GOLD AUCTION NOTICE

CIN-L65910KL1992PLC006623
IV/470A (old) W638A(New), Manappuram House, Valapad, Thrissur, Kerala - 680 567.

The borrowers, in specific and the public, in general, are hereby notified that public auction of the gold ornaments pledged in the below accounts is proposed to be conducted at the following branches on 29/ 04/ 2021 from 10.00 am onwards. The auction is of the gold ornaments of defaulted customers who have failed to make payment of their loan amount despite being notified by registered letters. Unauctioned items shall be auctioned on any other days without any further notice. Reserve price is fixed on the basis of market price of the gold on the date of auction or the 85% of the average 30 days IBJA rate whichever is higher. Change in venue or date (if any) will be displayed at the auction centre and on the company website . The details given below are in the order of Branch Name, Loan Number, Customer Name, Total Due Amount (in `) & Item Name

TS CANCELS SSC, INTER FIRST-YEAR EXAMS

Class 10 students to be assessed on the basis of objective criteria, developed by the SSC

EXPRESS NEWS SERVICE
@ Hyderabad

THE Telangana government on Thursday announced the cancellation of SSC and Intermediate first-year examinations, and postponed Intermediate second-year examinations, considering the safety of students and teachers amid a surge in Covid-19 cases.

Chief Minister K Chandrasekhar Rao took the decision after reviewing the situation with Education Minister Sabitha Indira Reddy, Special Chief Secretary of Education Chitra Ramachandran, and other officials. The State government's announcement came close on the heels of the Central's decision to cancel CBSE Class X Board exams and postpone Class XII Board exams.

"Considering the present pandemic situation prevailing in the State, and also keeping in view of the CBSE notification on April 14, the government hereby cancels all Class X exams to be held from May 17," read a memo issued by the State government.

The results of Class X students are to be prepared on the basis of objective criteria to be developed by the SSC Board, Telangana, at a later date. If any candidate is not satisfied with the marks allotted will be allowed to appear for an exam as and when the conditions are conducive.

According to the memo, all the Intermediate first-year students will be promoted without exams. The dates for the conduct of Inter second-year exams will be announced 15 days in advance, for which a review meeting would be convened in the first week of June. All the second-year students with backlogs will be given grace marks for backlogs only. Besides this, the mandated 25 per cent weightage of Intermediate Public Exams will not be considered for EAMCET this year.

The SSC exams are scheduled to be held from May 17 to 26, while the Intermediate exams were supposed to begin from May 1 till 19.

Odisha postpones Class 10, 12 board exams

Bhubaneswar: Chief Minister Naveen Patnaik on Thursday announced postponement of Class X and XII board examinations in the State in view of the worsening Covid situation. The Chief Minister said that the decision has been taken keeping in view the safety of the students. He further announced that all schools and hostels in the State will remain closed from April 19 till further order. While the matriculation examination conducted by the Board of Secondary Education was scheduled to begin from May 3, the Plus Two examination was set to start from May 18. The Chief Minister said that a decision on conducting the examinations will be taken after improvement in the Covid situation. The State government and Council of Higher Secondary Education will review the situation in the first week of June and take a decision on rescheduling the Plus Two examination, he said. **ENS**

Greens irked over power line through reserves

SUBHASH CHANDRA NS
@ Karwar

THE Mahadayi project is put on hold after Goa's objection. However, in Karnataka, a proposal to divert 177 hectares of forest land to draw a high power transmission line for Goa is under process. This has left the greens here red-faced.

The Government of Goa has been objecting to the Mahadayi drinking water project citing destruction of forests. But on the contrary, it wants transmission line cutting through two significant forest areas — the Dandeli Wildlife Sanctuary (DWS) in Uttara Kannada and Deemed Eco Sensitive Zone of Bhimgad Wildlife Sanctuary (BWS) in Belagavi.

This development has put into action the wildlife enthusiasts who are urging the government not to allow the project as it will have a detrimental effect on the pristine wildlife habitat and the unique flora and fauna in the region.

Belagavi-based wildlife enthusiast Giridhar Kulkarni who highlighted the issue said that the proposed project aims to transmit power from the outskirts of Dharwad to Goa, which passes through Dandeli Elephant Reserve and ecologically sensitive zones of both KTR and BWS. "Of the 177.09 hectare area, 30.412 hectare area is in the Castlerock area of Dandeli Sanctuary, which forms a contiguous patch for KTR," he told Express. The forest has species like Tiger, sloth bear, Leopard, Gaur, Great Indian Hornbill and other rare animals protected under Schedule 1 of the Wildlife Protection Act 1972.

Giridhar wrote to the then Chief Minister on November 17, 2018 to both PCCF, Head of Forest Force and Chief Wildlife Warden on February 14, 2020 and to Chief Secretary, on June 18, 2019 and even to Conservator of Forests, Belagavi recently. Surprisingly, no politicians from Karnataka with an exception of former member of State Board for Wildlife Sowmya Reddy raised their voice against the project. Reddy has written to Chief Minister B S Yediyurappa on 25 February, 2021 expressing her concern. The Jayanagar MLA has written to the Chief Minister, requesting not to allow the project, saying it is not in the interest of wildlife.

The project aims to transmit additional 400 kV of power to Goa and has been taken up as part of a project by the Union Ministry of power. The over Rs 265 crore project seeks to divert forest land for a period of 50 years.

Notice on plea for CBI to probe stamp paper scam

EXPRESS NEWS SERVICE
@ Bengaluru

THE Karnataka High Court on Thursday issued notice to the State Government on a public interest petition seeking directions to entrust the probe into a case of fabrication of documents at sub-registrars' offices, to the Central Bureau of Investigation. The Halasuru Gate Police had earlier registered an FIR in connection with fabrication of registered documents, cheating by using counterfeit seals and franking of stamp papers in the sub-registrars' offices.

A division bench of Chief Justice Abhay Shreeniwas Oka and Justice Suraj Govindaraj, which was hearing the petition filed by S Narayan, a resident of Thyagaraja Nagar, ordered notices to the Chief Secretary, Inspector General of Registration and Commissioner of Stamps, Commissioner of Police and Inspector of Halasuru Gate Police Station.

The petitioner contended that the sub-registrar of Gandhi Nagar has lodged a complaint with Halasuru Gate police on December 21, 2020, about fabrication of registered documents and cheating by using counterfeit seals and franking machines, which resulted in loss of crores of rupees to the state exchequer.

The petitioner claimed that the local police approached the case in a very casual manner and not even single culprit was apprehended. He even pointed out that the culprits could have extended their area of operation outside the state. Hence, he submitted a representation to the government seeking a CBI probe into the case to bring culprits to book.

ISRO, French space agency to share expertise on human spaceflight

EXPRESS NEWS SERVICE
@ Bengaluru

THE Indian Space Research Organisation (ISRO) on Thursday exchanged an 'Implementing Arrangement' with French National Space Agency (CNES) for cooperation concerning Human Spaceflight Programme. The agreement that was exchanged between ISRO Chairman Dr K Sivan and French Minister for Europe and Foreign Affair Jean-Yves Le Drian was specifically on sharing of expertise in space medicines for the Human Spaceflight Programme.

During Jean-Yves Le Drian's visit to Bengaluru, an MoU was also signed between Karnataka Innovative & Technological Society (KITS) and IFCCI (Indo-French Chamber of Commerce and Industry) to boost up the collaboration between India and France in the field of innovative technology.

The French foreign minister is on a tour of India to promote France as an attractive destination for investment and bolster Indo-French space, scientific and technological cooperation. "Evolution and achievements of Indian space programme and India-France space cooperation and details of the recent space reforms announced by Government of India were presented to the minister," said a statement from ISRO.

Deputy Chief Minister Dr CN Ashwath Narayan, who also holds the Information & Technology portfolio assured full support and cooperation by the Karnataka government for French start ups and businesses set up by French expats in the state.

"France has emerged as a major source of FDI for India with more than 1,000 French establishments already present in India. France is the 9th largest foreign investor in India with a cumulative investment of USD 6.59 billion from April 2000 to December 2018 and India-France bilateral trade stood at 11.52 billion," Dr Ashwath Narayan said.

MeitY Startup Hub (MSH) and La French Tech Bengaluru-India launched the Indo-French Tech Programme to support Indo-French startup collaboration, facilitate a rapid convergence of the French and Indian start-up ecosystems, and establish linkages between Indian and French incubators and startups.

This programme is jointly supported by the Ministry of Electronics & IT of India, and the French government. The MoU between KITS and IFCCI has frameworks set for mutual industry facilitation, Joint venture opportunities and industry collaborations to explore potential market opportunities, when a company from one side wants to collaborate with the industry from the other side.

Scientist was compelled to face humiliation, says court

CONTINUED FROM PAGE1

THE Supreme Court had on September 14, 2018, ordered the Kerala government to pay a compensation of ₹50 Lakh to the former ISRO scientist.

"There can be no scintilla of doubt that the appellant, a successful scientist having national reputation, has been compelled to undergo immense humiliation. The lackadaisical attitude of the state police to arrest anyone and put him in police custody has made the appellant suffer the ignominy," the court observed. "The dignity of a person gets shocked when psycho-pathological treatment is meted out to him. A human being cries for justice when he feels the insensible act has crucified his self-respect. That warrants grant of compensation under the public law remedy," it added.

'Expose conspiracy'

Welcoming the verdict, Nambi Narayanan said all those who were part of the conspiracy should be brought to light. He said the ISRO spy case was fabricated and that he spent 50 days in custody / jail

Bag stuffed with lower part of body found in Kuppam

CHITTOOR: A bag stuffed with the lower part of body of a man was found near Nadumuru Gurukul High School on Kuppam-Krishnagiri highway on Thursday morning. Some locals who found the bag informed the matter to police as foul smell was emanating from it. Kuppam police rushed to the spot and found two legs severed from the body were found in it.

They shifted the lower part of the torso to government hospital. "No clues were found at the spot. We informed the matter to our counterparts in neighbouring districts and Karnataka police. The upper part of the torso is missing. The assailants might have abandoned the dissected body after stuffing it in the bag," the circle inspector said.

EXPRESS READ

Polls to 2 corporations, 5 civic bodies in Telangana on April 30

Hyderabad: Polls to two municipal corporations and five municipalities in Telangana will be held on April 30 from 7 am to 5 pm, and counting of votes will take place at 8 am on May 3. The Telangana State Election Commission (TSEC) issued a poll notification for Greater Warangal Municipal Corporation (GWMC), Khammam Municipal Corporation (KMC) and the five municipalities of Siddipet, Atchampet, Nakrekal, Jadcherla and Kothur on Thursday. Also, polls to nine casual vacancies in nine ULBs have been notified, including for Lingojiguda ward (no. 18) in GHMC. Elections will be held for 248 wards in the above municipalities and corporations. With the notification, the model code of conduct has come into force for these municipalities or corporations.

RIys to capitalise on mirrors in trains to boost revenue

Bengaluru: To boost its non-fare revenues, Bengaluru Railway Division will soon open up advertising on 23 electric locomotives for advertisements. It will also allow mirrors inside trains to be used for advertisement stickers. Senior Divisional Commercial Manager Bengaluru Division, A N Krishna Reddy said the number of mirrors per train ranged between 225 and 300. "About 200 sqcm per mirror will be permitted for advertising stickers. The division plans to float tenders for advertising rights on 65 trains, including long-distance and short-distance ones, shortly." The idea is to attract more eyeballs when people look into the mirror.

CRIME PATROL

2 held for abetting graduate's suicide

BENGALURU: Police arrested two men who allegedly blackmailed an MBA graduate and drove him to suicide on March 23 at his house in KR Puram. Police arrested Robin Bharathu (22) and Javed Rahman (25), both of Rasulpura in Rajasthan, on Thursday. They said the two accused created a Facebook profile with the name Neha Sharma and befriended Rajendra Kumar (26) (name changed), an MBA graduate and IAS aspirant. Kumar spoke with his FB friend for a long time and the two became close. Eventually, the accused showed Kumar a recorded video and used it to blackmail him. Kumar borrowed Rs 36,600 to make an online payment to the accused. But the next day, the two men demanded more money and threatened to send the video to his family and friends. Unable to give them more money, Kumar took his life.

Four held with drugs worth ₹20 lakh

BENGALURU: The CCB police have arrested four people, including two Nigerians on charges of drug peddling and have seized drugs worth Rs 20 lakh. Ajah Francis Obasi (34), Charles Chima (29), both Nigerian nationals, Malang Pasha (30) of Bengaluru, and Jasir Thanicheri Kanday (33) of Kerala, are the arrested men. Police said the accused were arrested following credible information that they were selling narcotic substances in Bagaluru. The police have seized 200 ecstasy pills and 153 grams of MDMA worth ₹20, and other articles including lethal weapons from the accused.

Negative report must for Pooram attendees

EXPRESS NEWS SERVICE @Thrissur

IN a bid to control the spread of Covid-19 during Thrissur Pooram, the state government has directed those who are taking part in the festival and are aged below 45 to carry a Covid negative certificate received after the RT-PCR test.

The directive applies to members of the pooram organising team, mediapersons, percussion artists and others participating in the festival. It is not applicable for the public attending the celebration.

A meeting held in the presence of the chief secretary had decided to conduct Thrissur Pooram without cutting down on the celebrations. The meeting recommended that the devaswoms vaccinate everyone involved in organising the celebration, including committee members of the participating temples, percussion artists, Cochin Devaswom Board officials, sanitation workers of the Thrissur Corporation, pooram volunteers roped in by devaswoms, police officers and mediapersons. At present, those among them who are aged above 45 have been vaccinated.

Nod for Thrissur Pooram fireworks

THRISSUR: The Petroleum and Explosives Safety Organization (Peso) on Thursday granted permission for manufacturing explosives for Thrissur pooram and for the fireworks display. The permission was obtained for the festival to be conducted from April 17 to 24. The major fireworks display will be held on April 24. Sample fireworks display will be held on April 21. The organisers said pooram fireworks would be held by following all regulations.

ONUS ON EC TO IMPOSE COVID DISCIPLINE AT POLL RALLIES

After the successful completion of the three-phase Bihar Assembly polls in October-November last year amid the pandemic, Chief Election Commissioner Sunil Arora patted himself on the back for taking that leap of faith despite naysayers warning it was foolhardy. But the EC did next to nothing to enforce pandemic-appropriate behaviour like personal distancing and masking up during the Bihar campaign trail, which led to fears that the state could become a Covid hotspot after the poll dust settled. The apprehension was because of the widely anticipated second Covid wave during winter, which begins in November. But as luck would have it, the first wave started flattening and there was no winter surge, giving Arora a place in the sun. Netas, too, perhaps assumed they had beaten the bug for good. The only enforcement the poll panel did was at the polling booths in Bihar, where it provided sanitisers, masks and gloves to keep the EVMs safe, a template Arora replicated in the current elections to four states and a Union Territory.

But the virus was devious. It started unspooling when the weather began to change in March, which was when the poll schedule, too, was out. Now, midway into the eight-phase Bengal polls, the state has close to 5,000 fresh Covid cases a day. There are calls already to suspend the rest of the Bengal polls till the situation stabilises. For, large crowds at political rallies each day with just a small percentage of them wearing masks shows the message hasn't sunk in. The least the EC could do is to rigorously enforce Covid protocols through multiple means, including barring or restricting entry at rallies to keep electioneering safe. Arora has just retired and apparently under the new CEC Sushil Chandra's directions, the state poll panel has done the right thing by calling an all-party meeting to evolve a consensus on modifying campaigning during the pandemic.

Equally worrisome is the carelessness of the lakhs of people participating in the month-long Kumbh Mela in Haridwar. The Uttarakhand government ought to find ways to restrict entry if not call off the mela entirely so that pilgrims don't end up becoming superspreaders of Covid on their return home.

SAFETY TAKES PRIORITY OVER EXAMS

The decision to cancel CBSE Class 10 examinations and postpone those of Class 12, scheduled to begin on May 4, may be seen as a move to add a layer of protection to lakhs of students amid the exponential rise in Covid cases across the country. While Class 10 students need not have to go through the exam route, the call on Class 12 boards will be taken on June 1. The sudden announcement came following a meeting between the prime minister and a few top government officials; even members of the CBSE's governing body were not allegedly consulted. Abrupt as it might seem, the decision had to be quickly taken to keep children safe from the pandemic, more so because the virus in its second iteration is known to target the young population more. No activity that entails massing of crowds ought to be permitted till the virus curve starts flattening, which is why the exam schedule had to be disrupted.

Taking its cue from the CBSE, the Tamil Nadu government cancelled Class 10 state board examinations and postponed Class 12 exams, citing Covid clusters reported in schools across the state, which went to the polls on April 6. A government-aided school in Ammapettai village in Thanjavur district emerged as a Covid cluster last month after 56 students and a teacher tested positive. The same district saw another cluster in a private agriculture college after 24 students tested positive. The state government ordered a closure of schools as well as hostels that had reopened in January and February. The directorate of public health has, however, permitted Class 12 students, who have board examinations coming up, to attend their classes, citing fewer numbers and the ability to monitor safety protocols.

While Class 12 boards are the stepping stone for higher education, safety takes precedence over everything else. Their exams haven't been nixed, they have only been put off till June when the situation will be reviewed afresh. One hopes this would not be a zero year for them. As for the students, they ought to utilise the bonus weeks they now have to be better prepared for the exams in a positive frame of mind.

Six months after India and South Africa tabled a proposal in the WTO seeking a temporary waiver over IPRs during the pandemic, no substantial discussion has taken place

COVID & THE GREED OF BIG PHARMA, DEVELOPED NATIONS

AMIT BANDRE

BISWAJIT DHAR
Professor, Centre for Economic Studies and Planning, School of Social Sciences, JNU

As yet another surge of Covid-19 infections seriously threatens to push back normalisation of the global economy and society further, it is imperative that governments work in a coordinated manner to alleviate its impact. Ensuring that Covid-related vaccines and other medical products are freely accessible at affordable prices to the citizens of every country should be on the top of their agenda, for this is the only way that the spread of the contagion can be stymied. Reflecting the need of the times, the President of the European Commission, Ursula von der Leyen, said, "A global pandemic requires a world effort to end it—none of us will be safe until everyone is safe."

However, a heady mix of avarice of large pharmaceutical companies (the "Big Pharma") even in the midst of this deadly pandemic, together with "vaccine nationalism" in the developed world, is preventing the rapid rollout of vaccines in most of the developing world. As early as in October 2020, India and South Africa had anticipated the emergence of such a situation and tabled a proposal in the World Trade Organization (WTO) seeking a temporary waiver from the members' obligations to implement, apply and enforce four forms of intellectual property rights (IPRs), namely, patents, copyrights, industrial designs and trade secrets, for the prevention, containment or treatment of Covid-19.

The sponsors had justified their proposal arguing that since IPRs have been found to act as barriers to access and affordability of medicines, vaccines and medical products, a temporary waiver from the implementation, application and enforcement of these rights was necessary to ensure that these products reached everyone. This proposal has been co-sponsored by 59 countries and has the backing of almost two-thirds of the WTO membership. But six months since the proposal was tabled, no substantial discussion has taken place on the issues flagged by India and South Africa. The reason for this impasse is that developed countries have rejected any dilution of IPRs and have backed the interests of Big Pharma seeking to rake in their billions even during pandemic times.

Recent industry estimates have confirmed that Big Pharma and several biotechnology companies are viewing the pandemic as a windfall. *The Guardian* reported last month that three major players in the Covid vaccine business, namely Pfizer (collaborating with the German firm, BioNTech), Moderna and Johnson & Johnson are expecting an increase in their combined sales turnover by around $50 billion in 2021. The Chinese and the Russian vaccine manufacturers, Sinovac and Gamaleya Institute, funded by the Russian Direct Investment Fund, as also the American company, Novavax, are also estimated to increase their sales by billions of dollars. More importantly, operating margins of Big Pharma and the biotechnology companies are expected to be nearly 30% and 45%, respectively.

Big Pharma has usually justified its supernormal profits arguing that these are the incentives for taking excessive risks and undertaking large investments for carrying out research and development activities. The reality is that a none-too-insignificant part of the companies' research funding has come from government sources. But the companies have not been transparent about disclosing the real magnitude of government support. However, there is ample evidence that Big Pharma's Covid vaccine research received significant financial support from governments in several developed countries.

> The reason for this impasse is that developed countries have rejected any dilution of intellectual property rights (IPRs) and have backed the interests of Big Pharma seeking to rake in their billions even during pandemic times

According to an article in *Scientific American*, the Moderna and Pfizer vaccines that use mRNA rely on discoveries funded by the US government for decades. In fact, the US federal government support for Moderna has been so substantial that many commentators have demanded that it be called the "people's vaccine", in recognition of the taxpayer dollars invested in it. The irony is that despite investing taxpayer monies for the development of vaccines, the US government is allowing Big Pharma to pocket supernormal profits, instead of treating these critical products as merit goods that should be made available to the public at large at nominal prices. If the US and other developed countries are so strongly committed to supporting the penchant for profits of Big Pharma, is it reasonable to expect that they would agree to the India-South Africa proposal for making vaccines and medicines available to all?

"Vaccine nationalism" has been one of the major stumbling blocks to equitable distribution of the Covid vaccines. It is by now well known that several high-income countries have acquired enough doses to vaccinate their population several times over, while most developing countries are struggling to roll out their vaccine programmes. Yet another form of "vaccine nationalism" is being experienced by the Serum Institute of India (SII) as the company struggles to meet its vaccine supplies' commitments. The US, on which the Indian vaccine producer depends for meeting its requirements of specialised bags and filters, cell culture media, single-use tubing and specialised chemicals, has invoked a Cold War legislation, the Defence Production Act, to choke exports, and to help in ramping up America's domestic production of vaccines.

QUACKS AND THE LACK OF QUALITY HEALTHCARE

DEEPABALI BHATTACHARJEE
Senior Doctoral Fellow in economics of healthcare, IIT Roorkee

PRATAP C MOHANTY
Teaches economics, specialises in healthcare research, IIT Roorkee

Healthcare is one of the significant indicators of development. But it has not yet received a decent share of attention in India. The second wave of the recent pandemic that has already started in India points to the need for better quality healthcare infrastructure. Except in a few cities, the country does not have advanced medical facilities. As per the latest World Bank data, the number of physicians per 1,000 people in India is only 0.9, against the WHO's recommendation of 1.0. This number is 1.0 in Pakistan, 2.2 in Brazil, 2.0 in China, and 0.9 in Myanmar, Nepal and South Africa. India's position is much below the average ratio (1.3) of low- and middle-income countries.

One crucial factor for quality healthcare is the availability of qualified doctors. Due to a low doctor-population ratio and poor public spending, there has been an increased possibility of the entry of "quacks" or less-than-qualified doctors in the health sector. According to a 1996 Supreme Court ruling, anyone who practices allopathy without an allopathic degree is a quack. Quacks usually provide cheaper medicine to the locals and put patients at risk. They usually do not charge consultation fees and are easily approachable. But the consequences have often been adverse (*BMJ*, 2016).

In the present scenario, when the number of coronavirus-affected patients is increasing, the problem of a lack of qualified doctors is also surfacing along with the miserable condition of healthcare facilities in India. In fact, the Government of India has allowed medical students, interns and dentists to take care of Covid-infected patients, according to reports. But the government had no other better option then and now. This also encourages the entry of quacks (also called lemons) in healthcare.

It was reported that a 47-year-old man from Tamil Nadu who succumbed to Covid had been treated by a quack (30 June 2020, *The New Indian Express*). It is almost a nightmare to imagine quacks using a single syringe for multiple patients while promising cheap treatment. The consequences are miserable. There are other similar cases in the country during the pandemic where quacks are treating Covid-infected patients. The Tamil Nadu government, in fact, formed a special team of doctors to check quacks treating Covid patients. The team was mainly formed to see if quacks are qualified to treat Covid patients under the banner of AYUSH. Considering the shortage of qualified medical practitioners and lack of healthcare infrastructure, the pandemic is surely a curse for the nation but maybe a blessing in disguise for quacks.

> The problem of a lack of qualified doctors is surfacing as well along with the miserable condition of healthcare facilities in India. In fact, the Government of India has allowed medical students, interns and dentists to take care of Covid-infected patients. And there is the entry of quacks ... It is almost a nightmare to imagine quacks using a single syringe for multiple patients while promising cheap treatment. The consequences are dangerous

The public spending on the health sector in India has been abysmally low (only 1.1% of GDP). Nonetheless, the present government has ambitiously proposed to increase the health spending to 2.5% of GDP by 2025. The Economic Survey 2021 has also highlighted the proposal of the government to increase public health spending, which may bring down the out-of-pocket expenditure on healthcare from 65% to 35%. But an increase in government spending alone in the health sector does not guarantee better quality of health service provisioning. There have been serious discussions on public health spending, while a justified amount of attention has been given to improving the quality of healthcare.

But still, the question arises regarding how to deal with the quacks without compromising on the quality of healthcare. There are suggestions about giving training to quacks, but will a small crash course justify the entire syllabus required for medical practitioners? An informal training programme was undertaken by J-PAL South Asia in West Bengal in 2013-2014 and the result was some improvement in the quality of treatment provided by quacks, but it did not reduce the prescription of unnecessary medicines by them (*Science*, 2016). There should be sufficient spending on monitoring healthcare providers. This might help bring in some regulation in the healthcare sector amid the prevailing crisis. Regulation will provide a baseline of quality and protect the public against unlicensed or unscrupulous practices. It will also help place a cap on the fees that private-sector providers charge. Such an initiative by the government might help reduce the issue of quackery and save the lives of many more people amidst the already existing crisis.

Negligence in J'khand

A Covid patient died after waiting for doctors for hours outside Ranchi's Sadar Hospital (Apr 15). That the state health minister Banna Gupta was present in the hospital during the time, apparently busy with doctors in assessing the facilities provided to Covid patients, is quite an irony. There appears to have been neglect on the part of doctors too.
Cicily Thomas, Muvattupuzha

Vaccination inventory

Instead of Central and state governments blaming each other for vaccine shortage, the Union health ministry should publish a statewise vaccination inventory detailing opening stock, amount consumed, wastage and closing stock. This would also help the Centre in identifying underutilisation.
N Nagarajan, Secunderabad

States should follow suit

The Central Ministry of Education has taken a wise decision to postpone Class 12 CBSE exams due to the surge in Covid cases. Class 10 exams have been cancelled considering the welfare of the students. All states should take a cue from this and postpone the Class 12 board exams.
Rajakumar A, Palayamkottai

Ban all congregations

The CBSE exams have rightly been cancelled or postponed keeping in view the rapid spread of Covid in the country. Similarly, it is high time that the government bans all religious congregations until the pandemic subsides. The Election Commission should prohibit campaigning and rallies to avoid people gathering in large numbers to stop the virus spread.
S V N Vijayendra, Hyderabad

Kumbh Mela amid Covid

While the governments and leaders have issued many statements on taking precautions due to the second wave of Covid, Uttarakhand has ignored the protocols and allowed lakhs of pilgrims to participate in the Kumbh Mela. I fail to understand how they allowed such a mammoth gathering.
K S Sundaram, Coimbatore

Will cricketers help?

Amidst the fury of the second wave of the coronavirus that threatens to overturn the economy, the cash-rich IPL tournament has been going on.
This season of the IPL will further swell the purses of cricketers. Can they apportion a reasonable sum towards the welfare of migrant workers who lost their livelihoods after the pandemic and are facing problems again?
R Sivakumar, Chennai

Exponential rise

This is with reference to the article *Exponential truth trumps linear lies* (Apr 14). Statecraft needs maintenance of secrecy in select matters. But imprudent exercise of secrecy can bring about a dangerous situation as has happened during the pandemic.
S Madhavan Thampi, Haripad

Denied job in Calicut Univ

Kudos to the economist and PhD holder Ranjit R, son of a daily wage labourer from Kasargod, on being selected as assistant professor in IIM-Ranchi. But the Calicut University denied Ranjit a similar post despite him being a top ranker in the list and also an ST candidate. This has once again exposed the true face of the ruling alliance that often brags about its achievements in reforming society.
Narayanaswamy Raman, Parali

Need a separate state

Though I am no fan of the Union home minister, I think his statement that the Gorkhaland issue should have a permanent solution is correct. The demand for a separate state is longstanding and moreover, the terrain and culture are different from the rest of Bengal. When many new states have come up after 2000, why not one for Gorkhas too?
T Kailash Ditya, Hyderabad

Cutting down trees

The heat wave has been so intense here for some time. The administration is sadly cutting down trees and widening the roads. Hence pedestrians are exposed to the unbearable heat. If the government has to increase the width of the roads, it should also plant saplings on both sides.

Enough stock for all, states need to rationalise oxygen use: Centre

Asserts ramped up production and surplus stocks are enough to meet rising demands

Oxygen cylinders are loaded into ambulances waiting to take them to hospitals in Lucknow on Thursday | PTI

SUMI SUKANYA DUTTA @ New Delhi

WITH acute shortage of oxygen being reported from various states, the Centre on Wednesday announced that it will carry out a mapping of oxygen sources and initiating actions to avoid panic among the public.

The Union health ministry said there is sufficient production capacity of around 7,127 metric ton, and that the surplus oxygen available with steel plants is also being utilised as per need.

The total production is 100 % since past two days, the Centre maintained. On Monday, India's medical oxygen consumption was 3,842 MT, which is 54% of the daily production capacity.

Maharashtra, Gujarat, Madhya Pradesh, UP, Karnataka, Tamil Nadu, Delhi, Chhattisgarh, Punjab and Rajasthan account for the maximum consumption of medical oxygen.

> It is pertinent to note that there is sufficient production capacity of around 7127 MTs for oxygen in the country, and as per need, the surplus oxygen available with the steel plants is also being utilised
>
> Union health ministry

The current stocks, including the industrial stocks with the manufacturing plants, is more than 50,000 MT, the Centre said. "Along with the ramped-up production of the oxygen manufacturing units and the surplus stocks available, the present availability of oxygen is sufficient."

At the same time, the government asked states to make rational use of medical oxygen and ensure that there is no wastage. The states were instructed to set up control rooms for ensuring smooth supply and reviewing requirements of cylinders and tankers.

The challenge is to move oxygen to states with increased necessity, the Centre, said adding that mapping of the surplus sources with states that have greater need for oxygen like Gujarat, Madhya Pradesh, Uttar Pradesh, Delhi and Chhattisgarh is being finalised.

The Centre has formed a subgroup to facilitate the movement of tankers by road and rail. Oxygen generating plants sanctioned under PM-Cares are being reviewed for early completion of 100 % of the plants to meet the need of oxygen especially in remote areas.

Uddhav seeks nod to procure oxygen from other states

EXPRESS NEWS SERVICE
@ Mumbai/Bhopal

WITH a large number of Covid patients in the state requiring oxygen support, Maharashtra is looking at the possibility of demand for medical oxygen exceeding supply by the end of this month.

At present the production is 1,200 metric tonne (MT) per day while it is estimated that the demand by the end of April could go up to 2,000 MT.

In a letter to the PM, Chief minister Uddhav Thackeray has sought the Centre's permission to airlift medical oxygen from other states. At present, the state is diverting its entire production for medical purposes, temporarily cutting off supply to industries. "In many places, private hospitals are declining to admit new patients due to non-availability of oxygen," said an official.

Meanwhile, Madhya Pradesh is also grappling with the shortage of medical oxygen. It is learnt that several hospitals in Indore, Bhopal, Sagar, Khargone and Jabalpur districts are unable to provide oxygen support.

At present, the state is getting local supply of around 267 MT but the daily requirement has touched 400 MT. On Thursday evening, it said the Centre assured of providing 450 MT.

Rush at cremation grounds getting difficult to handle

NAMITA BAJPAI, RAJESH KUMAR THAKUR AND ANURAAG SINGH @ Lucknow/Patna/Bhopal

BODIES of Covid patients piling up at cremation grounds have become a nightmare for the authorities. While Bihar is getting defunct electric crematoriums restarted in state capital Patna, in Uttar Pradesh the authorities in Lucknow came up with another solution: to cover up the cremation ground at Bhainsakund with tin sheets.

The cover (see pic) was built a day after videos showing a large number of burning pyres went viral amid allegations of the fatality count being underreported.

The Lucknow municipal authorities on Thursday got the tin sheets put up around the cremation ground's boundary to block its view from outside. The step was taken keeping in mind people's safety since it's a Covid-affected area, they claimed.

Given the huge rush of bodies, people are forced to wait for hours to cremate their dear ones. The Lucknow municipal corporation has decided to open more electric crematoriums and also to keep about 50 pyres ready daily to handle the next day's rush.

In Patna, too, there is a big queue every day, with exhausted cremation ground workers saying they are not even getting time to have food. The Bihar government has instructed that corona patients must be cremated in electric furnaces alone.

At Bansghat, where the city's only electric crematorium was operational, Alok Kumar, a worker, said: "About 20-25 bodies are being brought daily." One body takes 45-60 mins to burn. "25-plus bodies being brought every day means we hardly get any break," said Niru, 35, another Bansghat worker.

Sources said 24 people were cremated to April 12 and 32 on April 13. The municipal corporation opened an electric furnace at Gulbighat for corona-infected bodies on Wednesday night. There also, nine bodies were burnt till Thursday afternoon and several others were in queue. Another one at Khajekalan Ghat is expected to start working on Friday. Patna DM Chandrasekhar Singh said the civic body was directed to make all other defunct electric crematoriums operational in the shortest time.

In Bhopal, Bhadbhada and Subhash Nagar cremation grounds and Jahangirabad graveyard have been designated for the Covid patients' bodies. While the state health bulletin put the death figures across the state at 51 and 53 on Wednesday and Thursday, respectively, caretakers at the three cremation/burial grounds claimed daily 60-70 are being cremated/buried daily in Bhopal alone.

BN Pandey, who lost his brother to the pandemic, recounted the horrors of the Bhopal Gas Tragedy. "I was a Class IX student in 1984 when we saw bodies everywhere in the cremation grounds. Now I'm seeing a similar horror. I've been waiting for my brother's cremation since morning and have seen 30-40 bodies," he said.

'Kin of patients also hide deaths'

Bhopal: MP minister Prem Singh Patel made a shocking statement on Covid deaths. "Marna toh kya hai, ab marne ka kya hai.. umar ho jaati hai toh usko toh marna hi padta hai (One who turn old have to die)," he said. To a query about the government hiding toll, he sought to blame the kin of patients saying they are hiding the facts to conceal the cause of death.

Gujarat High Court pulls up state govt for not maintaining data

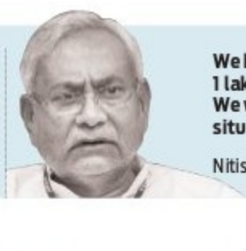
Mumbai: The Gujarat High Court on Thursday pulled up the state government for not maintaining data of Covid dedicated hospitals, vacant beds and testing. A bench headed by Chief Justice Vikram Nath said the state portal does not provide real-time figures. "It may show there is availability, but when you go to a hospital you will find otherwise," said Chief Justice Nath. The state said the portal is being maintained by an association of hospitals. The court then asked that the government to take the data under its control and to provide accurate information. "You cannot leave it to the association." "A lot of families live in a small accommodation. If two test positive, what happens to the others? If parents test positive, who will take care of children?" he asked.

Editors Guild seeks vaccines for scribes

New Delhi: The Editors Guild of India urged the government to declare journalists as frontline workers and to ensure priority vaccination for them. News organisations are relentlessly carrying out operations, it said. "News media is included in essential services. It will only be fair that journalists be given this cover of protection, especially in the face of the number of infected rising..."

> First, a wall to cover slums for Trump and now this to cover up for sending people to death. The truth is scaling these walls
>
> Sitaram Yechury, CPI-M leader

> People are facing untimely deaths. What is shameful is that even for cremations, complaints of extortion are surfacing
>
> Akhilesh Yadav, Samajwadi Party leader



> We have now ramped up testing to nearly 1 lakh daily and hope to exceed it soon... We will take strong actions if the situation continues to worsen
>
> Nitish Kumar, Bihar Chief Minister

INDIA'S TOTAL NUMBER OF ACTIVE CASES

RAISINA DIALOGUE

'New Delhi a natural partner in shaping Indo-Pacific region'

EXPRESS NEWS SERVICE @ New Delhi

AUSTRALIAN Prime Minister Scott Morrison on Thursday said that his country perceived India as a natural partner in shaping the future of the Indo-Pacific. "Australia sees India as such a natural partner in shaping the future of our region. This is due to a combination of geography, values, growing economic security and people-to-people ties. In India, I know we have a friend who will help build our region, where all nations can prosper," he said at the Raisina Dialogue 2021.

Morrison said that the first-ever Quad Leaders' Summit held in March also showed the momentum that is built by the grouping to forge a positive and inclusive agenda for the region.

He said New Delhi is building economic capability while advocating regional cooperation. "We welcome your leadership, Prime Minister Modi, and welcome India's leadership and engagement, whether it's on the outstanding vaccines that are necessary and the Maitri campaign that you've engaged in."

The elevation of India-Australia ties has led to cooperation in various sectors including commerce and defence, Morrison said.

China thought it could push us with tech advantage, says CDS

MAYANK SINGH @ New Delhi

CHIEF of Defence Staff (CDS) General Bipin Rawat said on Thursday that China went into an aggressive mode against India as a plan to change the status quo at the LAC against which New Delhi stood firm and gained international support.

General Rawat said India will never get pushed. "They (Chinese) tried to change the status quo by using disruptive technology without resorting to force. They thought India would succumb to the pressure in the face of technological advances that apparently had," Rawat said at Raisina Dialogue 2021.

"India has stood firm on the northern borders, and we have proved that we will not get pushed. In whatever we have been able to achieve in standing firm, in preventing a change of status quo, we have been able to gather world support."

The Indian Army and the PLA have been in a state of standoff at various points at the LAC in eastern Ladakh since May last year.

"It is Chinese advancement in disruptive technology which is leading them to believe that they can compel other nations to succumb. China has been able to create disruptive technologies which can paralyse vital networks of the adversary... and they believe that just by a little pushing and shoving, they would be able to compel nations to give in to their demands," said the CDS.

There are some nations, said Gen Rawat, who think "they make their own rules and regulations" leading to conflicts. "That's what we are witnessing on our northern borders," he added.

GOVT SIMPLIFIES NORM FOR REISSUING OCI CARD

EXPRESS NEWS SERVICE @ New Delhi

OVERSEAS Citizen of India (OCI) cardholders will now have to get their document reissued only once at the age of 20 instead of multiple times, the Ministry of Home Affairs (MHA) said on Thursday.

According to the MHA order, a person who has got registration as OCI cardholder prior to attaining the age of 20 "will have to get the card re-issued only once when a new passport is issued after his or her completing 20 years of age, so as to capture his or her facial features on attaining adulthood".

If a person has obtained registration as OCI cardholder after attaining the age of 20 years, there will be no requirement of re-issue of OCI card, it added.

Currently, the OCI card is reissued each time a new passport is issued up to the age of 20 years of an applicant and once after completing 50 years of age, the MHA said. "The decision has been taken on the directions of Union Home Minister Amit Shah as part of the Modi government's desire to simplify the process and it is expected to significantly ease the process for re-issue of OCI cards," it said.

So far about 37.72 lakh OCI cards have been issued by the government, the MHA said.

The OCI card is a life-long visa for entry into and stay in India with a number of other major benefits which are not available to other foreigners.

ASSEMBLY ELECTION 2021 DECIDE

We will follow what the Election Commission decides about campaigning in the last three phases of the Assembly elections. Life is more valuable than elections –Adhir Ranjan Chowdhury, WB Congress

We don't want paribartan (change) in Bengal. Please re-elect Didi and help her carry on the development to take the state to new heights. Didi is out there even with her injured leg –Jaya Bachchan, Samajwadi Party

On the auspicious first day of the Bengali New Year, good wishes to all my Bengali friends. I pray to god that the New Year brings peace, happiness and prosperity to all –Amit Shah, BJP

Covid shadow over Bengal polls, one candidate dead

Left first to say no to big rallies, to focus on social media campaign

PRANAB MONDAL @ Kolkata

THE deadly virus has started taking its toll on West Bengal Assembly elections. A Congress candidate died on Thursday of Covid-19. Two other contestants tested positive.

The Election Commission (EC) held an all-party meeting, where TMC suggested that the last three phases scheduled for April 22, 26 and 29 be held in one go. However, the EC ruled that the schedule will remain unchanged. The fifth phase is coming up on April 17.

The EC's meeting with the parties discussed how campaigns should be conducted in the wake of the pandemic. The CPI(M) has announced it would not hold big rallies and asked its workers to carry out door-to-door campaigns and use social media to reach out to voters.

West Bengal Congress president Adhir Ranjan Chowdhury said he would welcome the EC's decision. "Life is more valuable than election," he said. Amit Malvya, BJP's IT cell head, also said they would abide by the EC's decision whatever it is.

Rezaul Haque, Congress candidate from Murshidabad district's Samserganj constituency died in a private hospital in Kolkata. He had tested positive and hospitalised with acute respiratory problem.

Left Front's ally RSP's candidate from Jangipur, Murshidabad, Pradip Nandi and TMC candidate from Goalpokhar, North Dinajpur, Golam Rabbani also tested positive for Covid-19. Rabbani was admitted to a hospital and Nandi was in home quarantine.

On Wednesday, West Bengal recorded its highest single-day spike of 5,892 cases and 24 deaths. In Kolkata, 1,601 new cases and seven deaths were reported in 24 hours.

Reacting to experts, who have been blaming large rallies where Covid protocols are flouted for the sudden spurt in cases, CPI(M) became the first party to say no to big gatherings. "We will not hold large rallies ahead of the remaining phases of elections. We will lay stress on door-to-door campaigns, campaigning through social media and small street corners. Proper Covid-19 protocols will be followed," said senor leader Mohammad Selim.

Campaign for the fifth phase of polls ended on Wednesday, after the EC extended the silence period before polls to 72 hours from 48 hours after the Cooch Behar firing in which four persons were killed.

Thousands join West Bengal Chief Minister and TMC supremo Mamata Banerjee's roadshow in Kolkata on Thursday | PTI

159 Assembly constituencies in West Bengal, where elections are still to be conducted

2 candidates in West Bengal Assembly elections have tested positive, other than the one who passed away

FIR by BJP against Mamata

Cooch Behar (WB): An FIR has been lodged against West Bengal CM Mamata Banerjee, alleging that she instigated voters to gherao central forces and that led to the firing in Sitalkuchi and the subsequent death of four persons. The FIR was filed by Siddique Ali Mia, the district president of BJP's minority cell in Cooch Behar. He said Mamata's previous comments incited the crowd.

11 more police observers

Kolkata: The Election Commission has decided to deploy 11 more police observers in West Bengal ahead of the fifth phase of Assembly polls on April 17, as a precautionary measure to avoid any Sitalkuchi-like incident where four people were killed in CISF firing. Currently, 55 police observers are working in the state for the elections. "The EC has decided to deploy 11 more police observers," said a notice.

Suvendu Adhikari (fist raised) at a BJP rally in Bengal's South Dinajupr district | PTI

24-hour campaign ban on Bengal BJP president

New Delhi: The poll panel on Thursday barred West Bengal BJP president Dilip Ghosh from campaigning for 24 hours. The ban was imposed for his alleged remarks that there would be "Sitalkuchi in several places", a reference to the killing of four people in firing by CISF during poll violence last week. The Election Commission also issued a notice to West Bengal BJP leader Sayantan Basu for his alleged "inflammatory" remark during a speech and asked him to explain his stand within 24 hours.

Jaya for company, Mamata braves the heat and ups ante against BJP

EXPRESS NEWS SERVICE @ Kolkata

TRINAMOOL Congress supremo Mamata Banerjee held her second roadshow on wheelchair in Kolkata on Thursday from Beliaghata to Bowbazar, a 4.5km stretch, under scorching heat. She was accompanied by Samajwadi Party's Rajya Sabha MP Jaya Bachhan.

With hundreds of supporters following her, the roadshow on Thursday travelled along arterial roads of east and central Kolkata. People standing on the road and residents from their balconies responded to Mamata, who kept waving her hands.

"May the Bengali New Year of 1428 be spent with safety, joy and peace. My good wishes to you all. We have to be in it together to keep West Bengal free of BJP," Mamata said.

A former resident of the state, Bachchan has been campaigining for TMC in West Bengal for a while now. "I am accompanying her (Mamata) because of the slew of development works that were carried out during the TMC's regime in Bengal. The TMC will win this election and BJP will be whitewashed," she said.

Thousands of party supporters took part in the rally and shouted slogans of "*Didi tumi egiye cholo amra tomar sange achhi*" (Didi, you go ahead, we are with you), "*Dangabaz* BJP *dur hato*" (Down with rioter sBJP) and "*Khela hobe* (The game is on)."

Jaya was vocal and said that Mamata has set an example by campaigning with an injured leg. "*Khela hobe*. Didi is playing the game even with her injured leg," said the actress, who shares a good rapport with the TMC supremo and had earlier attended the inauguration programme of the Kolkata International Film Festival. "We do not want change in Bengal. Please re-elect Didi and help her carry on the development work to take the state to new heights," she added. Bachchan. She also greeted the public on the Bengali New Year day.

Didi wants rest of phases clubbed, EC isn't willing

New Delhi: Rejecting rumours that the remaining phases of elections in West Bengal would be clubbed in view of the rising Covid cases, the Election Commission said on Thursday that there is no such plan. Later in the day, Bengal CM and TMC chief Mamata Banerjee urged the Election Commission to consider conducting the remain polls at one go. "In view of the huge surge in #COVID19 cases, I urge the ECI to consider holding the remaining phases in ONE go," she tweeted. Ex-chief election commissioner S Y Quraishi said while the campaign period is fixed at 14 days, extending by a few days is possible. "Clubbing with the last phase is doable," he said. Meanwhile, the West Bengal Chief Electoral Officer has called an all-party meeting on Friday to ensure adherence to the Covid-19 guidelines for the remaining phases of polls.

Cong largest party in Garo Hills mixed mandate

How many candidates and number of voters

There were a total of 182 candidates in the fray. The Congress and NPP had fielded their candidates in all 29 seats, while 20 BJP candidates contested the polls. The United Democratic Front failed to open its account. Voting was held on April 12 across 409 polling stations. The total number of voters taking into account all the constituencies was 7,43,717.

EXPRESS NEWS SERVICE @ Guwahati

THE election to the Garo Hills Autonomous District Council (GHADC) in Meghalaya, dubbed as the semifinal of ahead of the Assembly polls coming up next year, has produced a fractured mandate.

The Congress emerged as the single largest party, winning 12 of the 29 seats where elections were held on April 12. The National People's Party (NPP), which heads the state's ruling coalition, came a close second with 11 seats.

The BJP, an ally of the NPP, bagged two seats, while the regional Garo National Council won one seat. Three seats went to Independent candidates. The NPP had won 10 seats in 2015 and formed the council with members from other parties who defected. They took advantage of non-applicability of the anti-defection law in the state's tribal councils.

The BJP was ecstatic after the surprise victory in the two seats. Party MLA, AL Hek, who is also a minister, said the party's state in-charge Chuba Ao would sit with the elected members and decide the future course of action.

The GHADC has been mired in a controversy following allegations of largescale corruption. The BJP had flagged the issue and demanded an independent probe but the government ordered a five-year audit of income and expenditure.

BJP's Bernard Marak won the prestigious Tura constituency which is under the South Tura Assembly segment represented by Chief Minister Conrad K Sangma. Marak is a former member of Achik National Volunteer Council, an armed militant group which signed a tripartite agreement with the state and Central government. An NPP leader said BJP is likely to support NPP in the GHADC and they are in talks with the Independents.

Khalid gets bail in riots case, remains in prison

EXPRESS NEWS SERVICE @ New Delhi

FORMER JNU student leader and activist **Umar Khalid** was granted bail by a Delhi court on Thursday in a case related to the communal violence in northeast Delhi in February last year. However, Khalid will remain in jail as he is also accused in some other cases including one related to the criminal conspiracy lodged under the stringent Unlawful Activities (Prevention) Act.

The court, hearing a case arising out of the FIR registered at Khajuri Khas Police Station, said that Khalid was not physically present at the scene of the crime on the date of the incident. Amongst other bail conditions, Additional Sessions Judge Vinod Yadav of the Karkardooma Court directed Umar Khalid to install the Aarogya Setu app on his phone upon his release.

"(Khalid) is not visible in any CCTV footage/viral video(s) pertaining to the scene of the crime on the date of the incident. There is no identification of the applicant either through independent public witness or any police witness of he being present at the scene of the crime on the date of the incident," the order said. The court added that the CDR location of Khalid's mobile was also not found at the scene of the crime on the date of the incident.

The court observed that the applicant has merely been roped in the matter on basis of disclosure statements made by Khalid and co-accused Tahir Hussain and Khalid Saifi. The court rejected the prosecution's argument that Khalid had been in regular contact/touch with co-accused Tahir Hussain and Khalid Saifi over mobile phone and said that "prima facie that does not in any way go on to establish the criminal conspiracy alleged against the applicant in the matter."

The case was related to an incident on February 24, 2020 at about 2 PM, when a large crowd gathered on the road in a locality in northeast Delhi and started pelting stones injuring police officials. They also set several vehicles in a parking area nearby on fire.

Seat BJP's despite MLA disqualification

PRASANTA MAZUMDAR @ Guwahati

THE Manipur High Court on Thursday declared the election of BJP MLA, Okram Henry, who is also a minister, as null and void for filing incorrect and incomplete information in his affidavit. A single judge bench of Justice MV Muralidaran declared that the petitioner, Yumkham Erabot Singh, is duly elected as a member of the Wangkhei constituency. This means the seat remains BJP's.

Contesting as a Congress candidate, Henry had polled 16,753 votes as against 12,417 by Singh of the BJP. Later, Henry defected to the BJP and was appointed a minister. The petitioner highlighted that Henry had furnished incorrect educational qualification and also did not give full details of a criminal case and a drug case against him in the affidavit. According to the 2012 election affidavit, his educational qualification is BA from Punjab University, but he cited Class XII from the Manipur Public School in the affidavit of 2017.

According to the petitioner, there was a criminal case pending against Henry before the court of Chief Judicial Magistrate (CJM), Imphal West, over non-payment of money to a company. In order to discharge liability partly of ₹10,29,47,449 to the complainant company as agreed upon, Henry had issued a cheque for ₹10 lakh but it was dishonoured by the bank citing "insufficient funds". Later, the company filed a case against him before the CJM court. A special trial case is also pending before the court of Special Judge, on illegally transporting contraband drugs.

Following the high court's ruling, Singh reportedly met Assembly Speaker Yumnam Khemchand.

EXPRESS READ

Campaign ends for Rajasthan by-polls

Jaipur: Campaigning for by-polls in three Assembly constituencies of Rajasthan, for which 27 candidates are in the fray, ended on Thursday evening. Voting will be held on April 17 from 7 am to 6 pm in the Sahada constituency in Bhilwara district, Rajsamand in Rajsamand district and Sujangarh in Churu district. A spokesperson from the election office said 7,43,802 voters will exercise their franchise, and counting will be held on May 2.Even though campaigning came to end, candidates can go on door-to-door visits to meet voters, the official said.

SC bats for woman Chief Justice of India

New Delhi: The Supreme Court on Thursday said time has come when a woman should be Chief Justice of India and stressed that there is no attitudinal change. The top court said that it always has the interest of women in mind and its every collegium considers women for appointment as judges in higher judiciary. Not a single woman judge has figured in the list of 48 Chief Justices of India including the CJI designate NV Ramana, since it came into existence in 1950. The court was hearing a plea of women lawyers' body.

Partial relief for Raijor Dal chief Gogoi

Dismissing an appeal by the National Investigation Agency (NIA), the Gauhati High Court recently upheld the bail order of Akhil Gogoi, which was issued by a special NIA court. The case pertains to his alleged role in violent anti-CAA protests in December 2019. Gogoi, who is in judicial custody, was charged under UAPA, but the court observed that any act, aimed at creating civil disturbance, will not come under UAPA if not committed with the requisite intention. Gogoi, president of political party Raijor Dal, was granted bail by the special court last October. He was denied bail in another case related to anti-CAA violence.

APPL confirms commitment to Assam's cause

The Amalgamated Plantations Private Limited (APPL), a Tata tea entity, said it remains committed to Assam and continues maintaining its main operating office in Guwahati. The statement comes after insurgent group ULFA asked APPL to relocate its administrative offices to Assam and recruit only locals. "We have 21 tea estates/operating units across Assam, employing almost 50,000 (including seasonal workers). We have invested substantially in two tea processing units...and in a spice processing centre...In addition to business investments and employment opportunities, we run various community welfare initiatives for livelihood, education, skill development and healthcare, that have positively impacted the lives of about 2.5 lakh people in the state over the last 5 years," said the statement.

IIT team develops technique to boost battery life

Researchers from IIT Guwahati have developed an advanced technique which can estimate a key battery internal state, known as state of charge (SOC). The three-member team believes it will boost the overall performance of rechargeable lithium-ion (Li-ion) batteries. The findings were published in an international journal. SOC reflects the remaining capacity of the battery — how much more charge can be withdrawn before the battery gets fully discharged. The knowledge of remaining capacity helps optimise capacity utilisation, prevent overcharging and undercharging, increases battery lifespan and reduces cost.

Covid test must for arrival in Assam

The Assam government has made it mandatory for air passengers to undergo Covid-19 tests upon arrival in the state. "In partial modification of our earlier instructions, all air passengers arriving in any airport of Assam will have to undergo Covid-19 tests, excluding transit passengers," Health Minister Himanta Biswa Sarma tweeted. Assam is recording 300-500 cases a day, a majority of them in Guwahati. People are anticipating a lockdown despite the state government ruling it out. Schools are going through Bihu holidays. A closure order isn't ruled out.

BEFORE THE I ADDL. PRL JUDGE FAMILY COURT JUDGE AT BANGALORE

M.C. No. 6360/2019

BETWEEN:
Rahul Borwar ...Petitioner
AND:
Jaishree Malviya ...Respondent

NOTICE TO RESPONDENT UNDER ORDER 5 RULE 20 OF CPC

To, **SMT. JAISHREE MALVIYA**, W/o Rahul Borawar, aged about 24 years, R/at: Plot No. 1-B, Panchwati Colony, Ratanada, Jodhpur (Raj.)

Whereas, above named Petitioner has filed Divorce Petition under Section 13 (1) (i-a) & (i-b) of Hindu Marriage Act, 1955, against You before the above said Hon'ble Court.

You are hereby summoned to appear before the Hon'ble Court **on 8th June 2021 at 11:00 A.M.** in person or by a Pleader duly instructed to answer the claims, failing which, the matter will be heard and determined in your absence.

Given under my hand and seal of the Court on 9th April 2021 at Bengaluru.

By the order of the Court, Sheristedar, Family Court, Bangalore.

Advocate for Petitioner:
Mohammad Shakeeb
Multi State Collaborative Litigation #204, 2nd Floor, 134, M.B.C., Infantry Road, Bangalore-560001.

PUBLIC NOTICE

Public are hereby informed that my clients **Dhanraj, Madan Choudhary and Prahalad Ram** are the absolute joint owners of the residential property bearing No. 29 (presently amalgamated property of previous property No. 29 and 29/1-1) situated at 7th Cross, Kempapura Agrahara, Magadi Road, Bangalore-560 023 totally measuring 1818 sq. feet., and bounded on the **East by:** Road, **West by:** Sunderraj Urs property, **North by:** 7 feet passage and there after private property and **South by:** private property. My clients intend to execute equitable mortgage by way of deposit of title deeds in favour of M/s Vastu Housing Finance Corporation Ltd., 8th Mail Tumkur Road, Bangalore for financial assistance to develop and construct the above referred property. If any person, bank/financial institution have any objection for the said arrangement of my clients they may write to the under signed within 7 days from the date of this publication with document proof. Non receipt of any objections my clients presume that there are no objections from any person/s and proceed to complete execution of the mortgage deed. Any objections received thereafter is not binding upon my client.

B.R. Venkatachalapathy, Advocate, No.2, 1st floor, 2nd Cross, J.M. Lane, Balepet Cross, Bangalore-560 053 Dated:15-4-2021. Mob. 9341195589.

US slaps new sanctions on Russia over poll meddling

10 diplomats expelled over alleged spying, sanctions on 32 Russians over election interference as Biden takes a harder line on Moscow

WASHINGTON

THE United States announced sanctions and the expulsion of 10 Russian diplomats on Thursday in retaliation for what Washington says is the Kremlin's US election interference, a massive cyber attack and other hostile activity.

President Joe Biden's broadside against Russia came the same week as he offered to meet President Vladimir Putin for their first summit—a meeting US officials say remains "vital" so that the two countries can deescalate.

In an executive order, Biden widened restrictions on US banks trading in Russian government debt, expelled 10 diplomats who include alleged spies, and sanctioned 32 individuals accused of meddling in the 2020 presidential election.

Biden's order "sends a signal that the United States will impose costs in a strategic and economically impactful manner on Russia if it continues or escalates its destabilising international action," the White House said in a statement.

The Kremlin said on Thursday that sanctions would not "help" momentum for a summit and once the White House unveiled its measures, the Russian foreign ministry warned a response was "inevitable."

"The United States is not ready to come to terms with the objective reality that there is a multipolar world that excludes American hegemony," spokeswoman Maria Zakharova said. The latest tension comes against a backdrop of longterm anger in Washington at Russian election meddling and worries both in the US and its European allies over Russia's recent troop build up on the border of Ukraine.

The almost fatal poisoning and ongoing imprisonment of Alexei Navalny, who is effectively the last open political opponent to Putin, has further spiked concerns in the West. A senior US official, who spoke on condition of anonymity, told reporters that Washington was ready to impose more measures if necessary and also that additional actions are already in place but "will remain unseen."

Despite this, the official stressed that Washington is seeking deescalation and wants the proposed Biden-Putin summit to go ahead. "We do not desire a downward spiral," the official said. "In the coming months it will be vital for the two leaders to sit down to discuss the full range of issues."

The White House statement listed in first place Moscow's "efforts to undermine the conduct of free and fair democratic elections and democratic institutions in the US."

This referred to allegations that Russian intelligence agencies mounted persistent disinformation and dirty tricks campaigns during the 2016 and 2020 presidential elections, in part to help Donald Trump's candidacies. *Agencies*

Iran N-talks off to a tense start after Natanz attack

VIENNA

TALKS to save the 2015 Iran nuclear deal resumed in Vienna on Thursday in the face of fresh tensions, with Tehran preparing to ramp up uranium enrichment in response to an attack on a facility it blamed on archfoe Israel.

After a positive first round of negotiations last week aimed at resurrecting the 2015 agreement scuttled by former US president Donald Trump, Iran's announcement that it would enrich uranium up to 60 per cent "puts pressure on everyone," a diplomat said.

The move would take Iran closer to the 90 per cent purity level needed for use in a nuclear weapon. EU external affairs spokesperson Peter Stano described the announcement as "extremely worrisome from a nuclear non-proliferation point of view". "There is no credible or plausible civilian justification for such a decision," Stano told reporters.

Meanwhile, Iranian President Hassan Rouhani re-stated the country's long-standing position that "we are not seeking to obtain the atomic bomb", saying it was a "mistake" for Europe and the United States to express concern that Iran could "enrich to 90 per cent in one go". Tehran says the enrichment move is a response to Israel's "nuclear terrorism" after an explosion on Sunday knocked out power at its Natanz enrichment plant.

Israel has neither confirmed nor denied involvement, but public radio reports in the country said it was a sabotage operation by the Mossad spy agency, citing intelligence sources. "It definitely complicates things," the European diplomat said, ahead of the talks between the remaining parties to the deal since the US exit—Germany, France, Britain, China, Russia and Iran—which resumed early on Thursday afternoon. *AFP*

FRANCE

Lawmakers approve bill to increase police powers

PARIS

FRANCE'S parliament passed a security bill on Thursday to extend police powers despite criticism from civil rights activists who fear it threatens efforts to denounce police abuse

The bill was approved by 75 votes for and 33 against at the National Assembly, where French President Emmanuel Macron's party, which proposed the measure, has a large majority. The Senate has already adopted the bill.

In an effort to quell criticism, lawmakers have redrafted the most controversial article of the text. It now says helping to identify on-duty police officers 'with the obvious intent of harming" will be punished by up to 5 years in prison and a 75,000 euro-fine ($89,800).

Tens of thousands of protesters marched in Paris in November to denounced the initial provision that was making it illegal to publish images of police officers with intent to cause them harm.

Opponents say the new draft still remains vague and subject to interpretation by police officers. They also fear it will intimidate people trying to fight police abuse and discrimination by taking and publishing pictures and videos.

Macron's government said the law was needed to better protect police amid threats and attacks by a violent fringe and increasing harassment on social media.

Interior Minister Gerald Darmanin on Thursday praised the 'compromise' that lawmakers found on the text.

Biden calls on India, Pak to play bigger role in post-US Afghanistan

NEW DELHI

ANNOUNCING the pullout of American troops from Afghanistan, US President Joe Biden on Thursday said India, along with Pakistan, Russia, China and Turkey, holds a significant stake in the future of the country, and should do more to bring peace and stability there.

"We will ask other countries in the region to do more to support Afghanistan, especially Pakistan, as well as Russia, China, India, and Turkey. They all have a significant stake in the stable future of Afghanistan," Biden said.

The US president announced that troop withdrawal from Afghanistan will begin on September 11—20 years after 9/11. Currently, the US has over 2,500 troops stationed in Afghanistan, far less than the 1,00,000 during the Barack Obama administration. White House Press Secretary Jen Psaki said the current situation in Afghanistan required a diplomatic solution, and not a military one. "Even as we are withdrawing our troops, we will continue to support diplomatic and humanitarian work. We will ask other countries to step up, whether that's Pakistan, Russia, China, India, Turkey—countries in the region that certainly have a stake in stability. We will continue to provide significant humanitarian resources," Psaki said.

US Secretary Antony Blinken (R) talks with Afghan President Ashraf Ghani

The US president said the Afghanistan war was never meant to be a multi-generational. "We were attacked. We went to war with clear goals. We achieved those objectives. (Osama) Bin Laden is dead, and al Qaeda is degraded in Iraq, in Afghanistan. And it's time to end the forever war," the president said.

Meanwhile, the US Secretary of State Antony Blinken vowed on Thursday that Washington will have a lasting partnership with Kabul even after it withdraws all forces from the country. The unconditional withdrawal comes despite a deadlock in peace talks between the insurgents and the Afghan government and threatens to leave a power vacuum that could plunge the country deeper into violence.

"I wanted to demonstrate with my visit the ongoing commitment of the United States to the Islamic Republic and the people of Afghanistan," Blinken said after meeting Afghan president. *ENS/Agencies*

Protesters take part in a demonstration against the military coup in Dawei; (inset) protest leader Wai Moe Naing who was arrested on Thursday | AFP

Myanmar forces arrest prominent protest leader

YANGON

SECUIRTY forces in Myanmar arrested a prominent leader of the anti-coup protest movement after ramming him with a car as he led a motorbike protest in the central Monywa city.

"Wai Moe Naing was arrested... I saw his motorcycle hit by the car from afar," fellow activist Hein Zaw Win told AFP, vowing to "continue our protests until we win." The 25-year-old is seen as a key figure in the anti-coup camp.

In Myanmar's second-largest city Mandalay, a demonstration by medical workers Thursday turned violent when soldiers opened fire, sending them running to the mosque.

"They were shooting everywhere... they were targeting the Sule mosque compound because people in there were hiding protesters," said an eyewitness.

A 30-year-old man who lived in the compound was shot dead, and at least two others were injured, said a doctor who treated the wounded.

A medic who participated in the protest said he saw the arrest of six nurses and doctors during the crackdown.

"We lost contact with some medical team members as well," he told AFP.

Myanmar's healthcare workers have been at the forefront of a nationwide civil disobedience movement, refusing to return to work under a military regime. Their absence has left many of the country's hospitals unstaffed during the pandemic.

Civil servants from other sectors have followed suit, bringing the operation of the country's banks, schools, railway operations, and businesses to a halt.

The main boulevards of commercial hub Yangon were empty Thursday -- a far cry from the Thingyan celebrations of previous years that would see revellers dancing on the streets while being hosed down.

This year, public water fights have been cancelled.

"We may feel depressed because many of our people are killed every day.. but we never feel that we will lose this battle," a Yangon resident told AFP, adding that he and his family were marking the new year at home.

"Thingyan is just like any other day of revolution."

EXPRESS READ

Thousands flee after terror attack in Nigeria

Kano: At least 10 people were killed when jihadists attacked a northeast Nigerian town, torching a UN office and triggering an exodus into neighbouring Niger, local officials and the UN said on Thursday. Fighters from the so-called Islamic State West Africa Province (ISWAP) stormed Damasak in Borno state on Wednesday, the third assault on the town in a week, military sources and residents said. The UN refugee agency earlier said eight people were killed and another 12 wounded, with early reports showing 8,000 fleeing residents had reached the Niger towns of Chetimari and Gagamari.

Germany's highest court throws out Berlin rent cap

Germany's highest court ruled on Thursday that a cap on rent prices implemented last year by Berlin's left-wing state government is unconstitutional and void, fuelling an explosive political issue in an election year

THE LEFT'S SIGNATURE POLICY

- Once described by a former mayor as "poor, but sexy", Berlin has seen housing costs double over the last decade as employees lured by a strong job market moved into the city
- Therefore, a rent cap was introduced in February 2020 by the state's governing coalition with the goal of preserving affordable housing in Berlin
- The regulation meant that rents for some 90% of Berlin apartments were frozen at June 2019 rates for five years, and that new rents could not be above that level, while existing rents needed to be reduced to conform
- The rent cap faced fierce opposition from the property sector, which argued that the freeze discouraged developers from building in Berlin and ultimately worsened the capital's housing crisis

People take part in a protest march against the court ruling on Thursday | AFP

A FEDERAL SUBJECT: COURT

Berlin's opposition Free Democratic Party and Christian Democratic Union had appealed to challenge the rent cap

In its ruling, the Federal Constitutional Court in Karlsruhe said the regulation was unconstitutional because housing policy is a federal issue and states only may intervene if the federal government does not exercise that power

TENANTS LEFT IN THE LURCH

Some tenants will now generally be required to repay back rent. A poll by Sparkasse public savings bank for the daily *Tagesspiegel* Thursday found fewer than half of Berliners had set money aside for the arrears now due

1/4 of their income is how much Berliners spend on housing According to the property website Immowelt

18.4% of the city's 3.6 million residents own their own property, one of the lowest rates in Europe

10.6% the jobless rate in Berlin in 2020, a 2-point rise on the previous year

ASIA MATTERS

Two-week lockdown begins

Cambodia's leader ordered a strict stay-at-home two-week lockdown in the capital Phnom Penh starting on Thursday to slow a surge in coronavirus cases, warning "we will die unless we act responsibly." With the vaccination campaign still at an early stage, the Health Ministry reported 178 news cases on Wednesday, including 145 plus two deaths in Phnom Penh. Cambodia has so far confirmed 4,874 cases.

Govt withdraws duty on imported cotton yarns

The Pakistan government has decided to withdraw customs duty on imported cotton yarns till June to ensure smooth supply to the country's struggling textile industry. The textile export sector, which was already under pressure due to the pandemic, has been continuously demanding duty-free import of cotton yarn from all over the world to avert any big loss to textile exports.

COLOURFUL COFFINS LIGHTEN UP FUNERALS IN NZ

WELLINGTON

WHEN the pallbearers brought Phil McLean's coffin into the chapel, there were gasps before a wave of laughter rippled through the hundreds of mourners. The coffin was a giant cream donut.

"It overshadowed the sadness and the hard times in the last few weeks," said his widow, Debra. "The final memory in everyone's mind was of that donut, and Phil's sense of humor."

The donut was the latest creation by Phil's cousin Ross Hall, who runs a business in Auckland, New Zealand, called Dying Art, which custom builds colorful coffins.

Other creations by Hall include a sailboat, a firetruck, a chocolate bar and Lego blocks. There have been glittering coffins covered in fake jewels, a casket inspired by the movie *The Matrix*, and plenty of coffins depicting people's favorite beaches and holiday spots.

A casket designed by Dying Art that looks like a chocolate bar | AFP

The idea first came to Hall about 15 years ago when he was writing a will and contemplating his own death.

"How do I want to go out?" he thought to himself, deciding it wouldn't be like everyone else. "So I put in my will that I want a red box with flames on it."

Six months later, Hall, whose other business is a signage and graphics company, decided to get serious. He approached a few funeral directors who looked at him with interest and skepticism. But over time, the idea took hold. Hall begins with special-made blank coffins and uses fiberboard and plywood to add details. A latex digital printer is used for the designs. Some orders are particularly complex, like the sailboat, which included a keel and rudder, cabin, sails, even metal railings and pulleys.

Depending on the design, the coffins retail for between about 3,000 and 7,500 New Zealand dollars ($2,100 and $5,400).

Hall said the tone of funerals has changed markedly over recent years. "People now think it's a celebration of life rather than a mourning of death," he said. And they've been willing to throw out stuffy conventions in favor of getting something unique. Hall said his coffins are biodegradable and are usually buried or cremated along with the deceased. *AP*

IN THE COURT OF THE CITY CIVIL JUDGE AT BANGALORE
O. S. No. 5845 / 2017 (CCH 56)
BETWEEN : SMT. PANKAJA B
D/o Sri. Basa Reddy, Aged about 49 years, R/o No.123/A, 5th Main Road, Mathekere, Bengaluru 560 054. ...Plaintiff

Costly fuel pushes WPI inflation to 8-yr high

Economists expect prices to continue rising over next few months

ENS ECONOMIC BUREAU @ New Delhi

WHOLESALE price inflation as measured by the Wholesale Price Index (WPI) shot up to an eight-year high in March 2021 at 7.39 per cent, mainly due to the high cost of fuel and manufactured goods. Experts have already warned that supply side constraints induced by the second wave of the pandemic can make the situation worse and keep inflation high for a few months at the least.

According to Devendra Kumar Pant, chief economist at India Ratings & Research, while the sharp increase in March is mainly due to a base effect, the near-term inflation outlook is not that rosy either. "With summer setting in, perishable products (especially vegetables) are likely to experience higher inflation, low base of last year will also have an adverse impact of wholesale inflation at least till August," Pant noted.

WPI-based inflation had stood at 4.17 per cent in February 2021.

According to government data released on Thursday, wholesale fuel prices rose 10.25 per cent during March, while the prices of manufactured items increased 7.34 per cent. Among food items, prices of pulses were up by 13.14 per cent and fruits were up by 16.33 per cent.

Among the concerns that experts flag is that core inflation has also increased to a series-high of 7 per cent driven by metals, textiles, and chemicals, since global prices of many such goods have seen a fresh increase in recent days.

Earlier this week, India's CPI inflation data had shown that retail prices have also accelerated to a four-month high at 5.52 per cent in March.

Other indicators have signalled similar trend. The latest Purchasing Managers' Index (PMI) report released by IHS Markit had noted that input cost inflation is turning out to be among the strongest seen in the past three years. Aditi Nayar, chief economist, ICRA Ltd, said she expects headline and core WPI inflation to rise over the next two months and that there was "negligible space for rate cuts to support growth, in spite of the growing uncertainty related to the surge in Covid-19 cases".

MOST CATEGORIES WITNESS PRICE RISE

Government data released on Thursday shows prices across segments such as power, food articles, fuel, and manufactured goods climbing steadily upwards during March 2021

10.25%	16.33%	13.14%
increase in fuel and power prices	increase in the price of fruits	increase in the price of pulses

Citi to exit retail banking in India, 12 other countries

SESA SEN @ New Delhi

AMERICAN banking major Citigroup on Thursday said it will exit retail banking operations in 13 countries, including India and China, as part of a broader strategic review under new CEO Jane Fraser. Apart from these two nations, it will exit retail banking in Australia, Bahrain, Indonesia, Korea, Malaysia, Philippines, Poland, Russia, Taiwan, Thailand, and Vietnam. The group will focus on its wealth management business in these markets since it lacks the scale to compete in the retail space, it said.

4,000 staff in India consumer unit

"While the other 13 markets have excellent businesses, we don't have the scale we need to compete," Fraser said. Citi had entered India in 1902 and started the consumer banking business in 1985. In India, the business comprises credit cards, retail banking, home loans, and wealth management. It may also be noted that Citi is not closing down its consumer business here, but will scout for a buyer. Until the sale, there will not be any impact on the existing customers and staff in India.

"India is a strategic talent hub for Citi. We will continue to tap into the rich talent pool available here to continue to grow our five Citi Solution Centers which support our global footprint. There is no immediate change to our operations and no immediate impact to our colleagues as a result of this announcement," said Ashu Khullar, CEO Citi India.

Citigroup will focus its global consumer banking business on four markets: Singapore, Hong Kong, London and the UAE. "We believe our capital, investment dollars and other resources are better deployed against higher returning opportunities in wealth management and our institutional businesses in Asia," Fraser noted.

Citi's retail exit is in sync with other foreign banks that have quit their businesses in India over the past few years.

WIPRO TO ROLL OUT ROBUST HIRING PLAN, SKILL BONUSES

BISMAH MALIK @ Bengaluru

WIPRO will embark on a robust hiring plan with a year-on-year growth in recruitments, skill-based bonuses, and salary increments for senior employees after the IT services firm adopted a new operating model last quarter with a more linear structure. The company also declared its best fourth quarter results in a decade, its CEO Thierry Delaporte said in a press conference on Thursday.

According to the Wipro management, these skill based bonuses will be released as early as this week—essentially for domains such as data analytics and cybersecurity, and based on individual performances. The salary increments and promotion cycles are likely to become effective from June, 2021. Wipro added a total of 14,826 employees during FY20-21—including the hiring of 3,000 graduates last quarter.

According to Delaporte, net profit during the period grew by 27.7 per cent year-on-year to ₹2,972 crore, while operating margin saw an expansion of 344 basis points to 21 per cent. However, Wipro Chief Financial Services Officer Jatin Dalal said that the company's investments in salary hikes, promotions, employee bonuses, and acquisitions may lead to dilution of margins by 1-2 per cent in the next few quarters.

For the full financial year (FY21), gross revenues saw a 3.4 per cent y-o-y increase at ₹16,245.4 crore whereas net profit grew by 11 per cent y-o-y to touch ₹10,796 crore. Delaporte noted that he expects revenue growth for the coming quarter (April-June 2021) in the range of 2-4 per cent y-o-y, which also translates into a double-digit revenue growth outlook for FY22 between 11-13 per cent. Peer Infosys had said on Wednesday that it is looking at a revenue growth in the range of 12-14 per cent for FY22.

However, Wipro's two major acquisitions—Capco and Ampion—have not been included as far as the revenue guidance is considered.

> **This is the best fourth quarter results we've reported in 10 years... led by a very good volume growth. Despite the steep decline in Q1... we now bounced back** —Thierry Delaporte, CEO and MD, Wipro

TODAY'S STOCK PICK

Current Price ₹575.75
Target Price ₹770

ICICI BANK

Asset quality remains under control. Provision coverage remains best in the industry and it holds additional unutilized Covid provisions of `64.7b. Liability franchise continues to improve with cost of deposits falling, while Balance Sheet remains fairly liquid and thus conducive for growth. We expect RoA/RoE to improve to 1.8%/15.2% for FY23E.

Godrej Appliances to invest in AC plants

New Delhi: Godrej Appliances on Thursday said it will invest ₹100 crore across two of its manufacturing units—Shirwal in Maharashtra and Mohali in Punjab—to augment air-conditioner production capacity to a total of eight lakh units by 2025. The company is targeting a 10 per cent market share in the AC category over the next three years and also announced the launch of 30 new air-conditioner models with eco-friendly refrigerants.

Voda Idea makes full payment to DoT

New Delhi: Vodafone Idea—which had been issued a showcause notice by DoT over non-payment of licence fee in seven circles—has now made full payment with interest, news agency PTI reported. After receiving DoT's showcause notice dated April 7, Vodafone Idea (VIL) had recently said any payment not made on March 25, would be paid on April 15 with interest. Sources aware of the matter said full payments with interest have now been made.

Exports jump 60 pc to $34.45 bn in March

New Delhi: The country's exports surged by 60.29 per cent to a monthly record high of $34.45 billion in March driven by growth in sectors such as engineering, gems and jewellery and pharmaceuticals, even as the outbound shipments contracted by 7.26 per cent during the full 2020-21 fiscal to $290.63 billion. Imports too grew by 53.74 per cent to $48.38 billion in March, but dipped by 18 per cent to $389.18 billion during April-March 2020-21.

Airlines may post ₹10K cr loss in FY22

ENS ECONOMIC BUREAU @ New Delhi

AFTER recording a noticable recovery in February, domestic air traffic has begun to tumble after the onset of the second wave of the Covid-19 pandemic in India. This, combined with the suspension of international operations and rising fuel prices, is set to result in significant losses for the aviation sector during this financial year (FY22) too.

Airlines will log net losses this fiscal of around ₹9,500-10,000 crore, said a CRISIL Ratings study of India's top three airlines, which account for 78 per cent of total passenger traffic. However, this loss will still be around 35-40 per cent lower than the dent the pandemic put in the FY21 numbers.

The second wave's impact can be seen in the average daily number of departing passengers from domestic airports. This stood at 2.49 lakh during March 2021. On Tuesday, however, only 1.83 lakh passengers departed from Indian airports on domestic flights.

In tandem, new Covid-19 cases per day in India increased from 12,700 (average) in February 2021 to over 1.50 lakh in recent days. On Wednesday, daily Covid-19 cases topped the 2 lakh figure for the first time. Crisil added that airlines have also seen their cost of operations spike due to a rise in the price of aviation turbine fuel (ATF).

8 in line for universal bank, SFB applications

SESA SEN @ New Delhi

AS many as eight institutions and individuals have applied for on-tap licenses to set up universal banks and small finance banks, the Reserve Bank (RBI) said on Thursday.

UAE Exchange and Financial Services, REPCO Bank, and Chaitanya India Fin Credit are among the four applicants who have applied for a universal banking license, while VSoft Technologies, Calicut City Service Co-operative Bank, and Dvara Kshetriya Gramin Financial Services have sought a small finance bank (SFB) license. There are two individual applicants: Pankaj Vaish and others, who have shown interest in setting up universal banks, and Akhil Kumar Gupta, seeking on-tap licences for an SFB.

This is not the first time that UAE Exchange is attempting a banking foray. The non-bank financier was the sole applicant who had applied for such a licence in 2016, when the central bank had tweaked its policy on universal bank licences to make them available 'on tap' instead of during specific periods.

These applications will now be evaluated by an RBI panel, and, if accepted, will pave the way for India's first full-service banks since IDFC First Bank and Bandhan Bank were awarded licences in 2014. The banking regulator had also given ten small finance bank licences in 2018 which include Janalakshmi Financial Services, Ujjivan Financial Services based in Bengaluru, and RGVN (North East) Microfinance based in Guwahati.

RBI has released the names of applicants just a month after it formed a five-member Standing External Advisory Committee headed by former deputy governor Shyamala Gopinath to evaluate such applications. Separately, the RBI has set up the second Regulatory Review Authority (RRA 2.0) with a view to streamlining regulated entities.

> **Considering the developments in regulatory functions of the RBU... it is proposed to undertake a similar review of regulations with a view to streamlining and making them more effective** —RBI

IL&FS raises debt recovery target to ₹61,000 crore

ENS ECONOMIC BUREAU @ New Delhi

CRISIS-hit Infrastructure Leasing and Financial Services (IL&FS) said on Thursday that it had addressed aggregate group debt of around ₹43,000 crore till date through the sale of assets and through other cash receivables. The aggregate debt resolved so far represents 44 per cent of the overall debt of over ₹99,000 crore (as of October 2018) and more than 70 per cent of the revised targeted recovery value of ₹61,000 crore.

The management has further set a resolution target of ₹61,000 crore for itself by year-end, up from its earlier estimate of ₹56,000 crore.

"It may be kept in mind that the recovery target is higher than the average recovery observed under IBC since its inception," the company said. According to the Uday Kotak-led board of the conglomerate, 186 of the 347 entities within the group have been resolved so far, while the remaining 161 entities are under various stages of resolution. It aims to bring the number of unresolved entities to below 100 by September, taking the amount of debt resolved to ₹51,000 crore.

In July 2020, the Board of IL&FS had said debt worth ₹50,500 crore would be pared by the end of the financial year 2020-21. However, the onset of the Covid-19 pandemic slowed the process. Among other reasons, it pointed out that delays in the receipt of annuities from state governments, challenges in securing consent from other stakeholders, and pending litigation, have also been major hindrances. Of the ₹43,100 crore debt addressed so far, ₹26,800 crore is based on completed entity monetisation initiatives and accrued cash balance. And the rest is expected from resolution and restructuring applications.

Flipkart to buy Cleartrip for travel biz foray

ENS ECONOMIC BUREAU @ Bengaluru

WALMART-backed e-commerce firm Flipkart has ventured into the online travel segment with its acquisition of Cleartrip, a move the company announced on Thursday. Flipkart will acquire 100 per cent of Cleartrip's shareholding as it enhances its investments in order to strengthen its digital commerce offerings, it said.

Under the terms of the agreement, Cleartrip operations will be acquired by Flipkart, but the former will continue to operate as a separate brand retaining all employees while working closely with Flipkart to develop technology solutions.

"The Flipkart Group is committed to transforming customer experiences through digital commerce. Cleartrip is synonymous with travel for many customers, and as we diversify and look at new areas of growth, this investment will help strengthen our wide range of offerings for customers," Kalyan Krishnamurthy, CEO, Flipkart Group, said.

Piramal Group expands into India's crowded retail lending market

SESA SEN @ New Delhi

Wide range of products in market

At present, Piramal Retail offers seven products—affordable housing loans, mass affluent housing loans, loans against property, secured small business loans, purchase finance, unsecured loans, and used-car loans, and plans to expand locations

IN a bid to aggressively scale up the share of its retail loan book and bring down wholesale lending, Piramal Retail Finance on Thursday said it has entered the used-car financing business and plans to add four segments over the next 12 months: two-wheeler financing, education, unsecured small business loans and loans against shares.

The move is part of its broader goal of becoming one of the top five retail non-bank lenders over the next five years. After the acquisition of mortgage lender DHFL, which has a substantial retail portion, Piramal also aims to venture into more segments that offer cross-sell opportunities over the next year.

"Our core target market is the budget customer of Bharat. For these customers, Housing Finance remains a very important financial need. However, they have a wide variety of other needs as well—to expand their business, to buy a second-hand car, etc. Availability of credit for these highly underserved segments has been limited. The target group is people in mid-tier cities and the idea is to be present in 1,000 locations," said Jairam Sridharan, chief executive of the non-bank lender.

He added that the acquisition of DHFL fits perfectly into Piramal's overall retail strategy. "With DHFL, though we have launched a lot of non-mortgage products, our business will become very mortgage heavy. We are keen to launch more non-mortgage products so that we can cross sell products to these consumers as and when the transaction happens," Sridharan told reporters, adding that, in the medium term, retail should be around two-third, and wholesale around one-third of its book.

Piramal's overall lending book is around ₹45,000 crore, of which ₹5,000 crore is from retail. Sridharan expects retail to increase to over 40 per cent with the DHFL acquisition—pending clearance by the bankruptcy courts.

Piramal is currently in talks for at least five-six partnerships to enter education financing and financing for small businesses. "We should have another 10-20 partnership with fintechs next one year through the merged entity," Sridharan said.

DIGITAL TUSSLE

Amazon announces $250 mn SME fund as trader bodies allege lapses

EXPRESS NEWS SERVICE @ New Delhi

US e-commerce giant Amazon had to face the wrath of disgruntled small retailers as it kicked off its four dsy virtual *Smbhav* event to recognize the participation of small and medium businesses (SMBs). However, India's small trader bodies including All India Online Vendors Association, All India Mobile Retailers Association, and the Rashtriya Vyapar Sangh held a parallel virtual event called *Asmbhav*, alleging that Amazon had flouted FDI rules and given preferential treatment to several entities.

During its event, Amazon's India head Amit Agarwal announced a $250 million venture fund to help digitize SMBs in India, and invest in start-ups and entrepreneurs focusing on technology innovations in SMB digitization, agriculture, and healthcare. The company also said it wants to bring 1 million shops to the platform by 2025 under its Local Shops initiative, which was started last year to rope in local stores for quicker hyperlocal delivery.

"In 2020, we pledged to digitize 10MM SMBs, enable $10B in exports, and create 1MM jobs by 2025. Through our initiatives, we are committed to be a catalyst and a partner in unlocking the possibilities for a Digital India... The launch of Amazon Smbhav Venture Fund aims to attract best ideas and empower entrepreneurs to partner in this vision," Agarwal said.

TERMS & CONDITIONS OF PUBLIC AUCTION:-

1. Sale is strictly subject to the terms and conditions mentioned hereunder as also the terms and conditions mentioned in the offer/tender document to be submitted by the intending bidders.
2. The Immovable Properties will be sold on "AS IS WHERE IS, AS IS WHAT IS and WHATEVER THERE IS BASIS" including known encumbrances, if any. The Immovable Properties under auction can be inspected on the date and time specified herein 04.05.2021 and 05.05.2021 between 10.00 AM and 5.00 PM. Further, queries or clarification with respect to bid application form, submission of earnest money deposit (EMD), kindly contact Authorised Officer of Indostar Capital Finance Ltd (contact details mentioned in clause (4). The Auction can be conducted at branch level as well, in case, there would be any technical glitch or error in conducting auction.
3. We have also engaged local marketing Agency/service providers for doing marketing or searching the prospective bidders/purchasers which will also assist us in conclusion of auction process as per the provision of SARFAESI Act.
4. The tenderers/ offerers/ prospective bidders/ purchasers should submit their offer along with earnest money deposit (EMD) as referred in column (E) by way of demand draft or pay order favoring Indostar Capital Finance Ltd payable at Bengaluru Branch in sealed envelope mentioning "Offer for purchase of the Immovable Properties/Property" so as to reach with our authorized officer/person Mr. B P Raghunandan, Mobile - 9341228767 on or before the last date for submission of bids i.e. 13.05.2021 before 5.00 p.m. The amount of EMD paid by the successful bidder shall be adjusted towards the sale price.
5. Offers that are not duly filled up or offers not accompanied by the EMD or offers received after the above date and time prescribed herein will not be considered / treated as valid offers, and accordingly shall be rejected. The EMD shall not carry any interest.
6. Along with offer document, the intending bidder shall also attach a copy of the PAN card issued by the Income Tax department (or Form 60) and his/ her identity proof and the proof of residence such as copy of the Aadhar card, Passport, Election Commission Card, Ration Card, Driving license etc.
7. The Immovable Properties shall be sold to the highest bidder/offerer, subject to acceptance of the bid by the secured creditor/auction sale committee of Indostar Capital Finance Ltd. The online/ inter-se bidding for above Immovable Properties will take place on schedule date and time as mentioned above schedule in column "G" and on the website of our Indostar Capital Finance Ltd. However, the undersigned has the discretion to accept or reject any offer / tender without assigning reason.
8. All dues and outgoings, i.e., municipal taxes, maintenance / society charges, electricity and water taxes or any other dues including all overdue in respect of the said Immovable Properties shall be paid by the successful bidder(s)/purchaser.
9. The successful bidder/purchaser shall have to pay 25% of the sale amount (inclusive of EMD) immediately upon acceptance of the offer by the Authorized Officer in respect of the sale, failing which, the EMD will be forfeited.
10. The Balance 75% of the Sale price shall have to be paid within 15 days of conveying the confirmation of the sale to the successful Purchaser by the Authorized Officer or such extended period as agreed upon in writing by and solely at the discretion of the secured creditor as per Rule-9 of the Security Interest (Enforcement) Rule 2002. In the event of the Default, in payment of the balance 75% of the sale price or any part thereof within the prescribed period, the amount deposited shall be Forfeited and the Secured Creditor will be at liberty to sell the Immovable Properties once again and the defaulting Purchaser shall forfeit all claims to the Immovable Properties or to any part of the sum already paid towards the purchase thereof.
11. The Immovable Properties described herein above shall remain and be at the sole risk of the successful purchaser in all respects including loss or damage by fire or theft or other accidents, and other risk from the date of the confirmation of the Sale by the undersigned Authorized Officer. The successful bidder shall not be entitled to annul the sale on any ground of whatsoever nature.
12. In case final bid amount/sale consideration of assets is Rs. 50.00 lakhs or above, the successful bidder shall deduct and remit TDS @1% of bid amount from the sale consideration by giving PAN number of borrower as deducted which can be obtained from authorized officer/bank after completion of bidding and remaining 99% of sale consideration shall be payable to bank within stipulated time. Hence, the highest successful bidder is bound to deposit TDS @ 1% on purchase of repossessed asset on the PAN of the borrower as per Section (194-IA) of the Income Tax Act 1961.
13. In such cases sale consideration of asset under auction is Rs. 50.00 lakh or above the successful bidder/purchaser, on payment of entire sale consideration as above (net of TDS) and on completion of sale formalities, shall be issued a sale certificate for the Immovable Properties as per format prescribed under SARFAESI Act & Rules 2002 only upon receipt of Challan-cum-statement in form No. 26QB having remitted the TDS. The certificate for TDS in form 16B to be submitted to the bank subsequently.
14. It shall solely be the responsibility of the successful bidder to get the sale certificate registered. All expenses relating to stamp duty, registration charges, transfer charges and any other expenses and charges in respect of the registration of the sale certificate issued in format prescribed under the SARFAESI Act & Rules 2002 for the above referred Immovable Properties shall be borne by the successful bidder/purchaser. The sale certificate has to be registered at the earliest as per state Law/Rules regarding transfer else the purchaser has to give the request letter to the secured creditor mentioning the reason of delaying the registration.
15. The Authorized officer is not bound to accept the highest offer or any or all offers and Indostar Capital Finance Ltd., as secured creditor, reserves its right to reject any or all bid(s) without assigning any reasons. In case, the bids are rejected, Authorized officer can negotiate with any of the tendered or intending bidders or other parties for sale of the Immovable Properties by private treaty. Sale is subject to confirmation by the Secured Creditor/Auction sale committee of Indostar Capital Finance Ltd and as per amended Security Interest (Enforcement) Rule 2002.
16. No persons other than the intending bidders/offerer themselves, or their duly Authorized representative shall be allowed to participate in the auction / sale proceedings. However, the sale certificate shall be registered in favor of purchaser only in whose name bid application form has been submitted.
17. The Authorized officer reserves his right to vary any of the terms and condition of this notice for sale, without prior notice, at his discretion & can also avail the services of marketing Agent or service Provider in selling the said repossessed mortgaged Immovable Properties against their professional fee which will recovered from the borrower.
18. In case, all the dues together with all cost, charges and expenses incurred by the Secured Creditor are tendered by the above name borrower/co-borrower till one working day prior to the date of Auction then the Immovable Properties will not be sold and all the bids received from the prospective bidders shall be returned to them without any liability / claim against Indostar Capital Finance Ltd.
19. This publication is also a notice of 30 days to borrowers/mortgagor(s) of the assistance about holding of sale on above mentioned date if dues are not re-paid in full.
20. Tendered documents may be collected from local branch of Indostar Capital Finance Ltd. For detailed terms and conditions of the sale, please refer to the link provided in Secured Creditor's website i.e. www.Indostarcapital.com .
21. The borrowers/mortgagor are also hereby informed that they must take delivery of their personal house-hold belongings/articles lying inside the said mortgaged properties under the custody of Indostar Capital Finance Ltd, if any within 30 days from the date of publication, with prior intimation to Indostar Capital Finance Ltd failing which the Indostar Capital Finance Ltd shall have no liability/responsibility to the same and will dispose of at the risk of borrowers/ mortgagor.
22. Special Instruction: Bidding in the last movement should be avoided in the bidders own interest as neither the Indostar Capital Finance Ltd will be responsible for any lapse/failure in order to ward of such contingent situations bidders are requested to make all necessary arrangement/alternatives back-up etc., so that they are able to circumvent such situation and are able to participate in the auction successfully. The auction sale will automatically get closed at the expiry time frame of auction sale as mentioned in column no - G. The Authorised Officer can exercise its discretion to extend the auction sale by 15 minutes.

Kuldeep, Chahal demoted to Grade C in pay contract

Wrist-spinners Kuldeep Yadav and Yuzvendra Chahal were demoted to Grade C (`1 crore) in BCCI's annual contracts. Shubman Gill, Axar Patel and Mohammed Siraj are the new entrants in the list which has 28 players. Grade A+ (`7 cr) has three players, while Grade A (`5 cr) has 10 followed by 5 in Grade B (`3 cr) and 10 in Grade C (`1 cr), Kedhar Jadhav and Manish Pandey have been left out.

Away from home, seeking comfort

Playing on batting-friendly surface in Mumbai, CSK look to make adjustments with the ball

VENKATA KRISHNA B @Chennai

JUST how much do Chennai Super Kings miss playing at the MA Chidambaram Stadium? Over two consecutive nights, teams successfully defended totals of 152 and 149 on slow, low Chepauk surfaces. The three-time champions devise their strategy around these sort of surfaces, building their team around spinners, who will win them matches at what they call their *AnbuDen*.

Of all teams in the IPL, none maximise home advantage as much as Chennai. Season after season when they made play-offs, their plan circled around a simple formula: to get past the group stages, you need 16 points. That being the case, win at least five of the seven home matches and prevail in three away fixtures, the job is more or less done. Even their auction strategy is built around this, which is why every year CSK stock their spin department. They seldom spend big on overseas pacers because they don't need them.

Despite the IPL being played in India, franchises don't have the home comfort this time. More than other franchises, it affects Chennai to a great extent, who have to compromise on their philosophy. Playing in high-scoring venues like Mumbai and Bengaluru, where they are scheduled to play five matches and three matches respectively, severely affects their plans. The four matches that they play at New Delhi could be to their liking, but playing majority of their matches at the Wankhede and Chinnaswamy, means the Super Kings need to adapt as quickly as possible.

Since the Wankhede Stadium started hosting IPL matches in 2011, Chennai have played 13 matches at the venue, winning six and losing seven. And they are yet to win a match while batting first at the venue.

Apart from being a high-scoring venue where sixes flow freely, the dew factor makes life difficult for the spinners. The 7.30 PM start means the team bowling first has an advantage of completing a majority of their overs before dew sets in. After their defeat against Delhi Capitals, it was one of the aspects CSK's captain MS Dhoni touched upon. For a side that usually doesn't score big, that they managed 188 after losing two early wickets against Delhi showed they were coming out of their comfort zone. But it is the bowling department that needs to crack the code.

Chennai are desperately in search of bowlers who can provide them with wickets in the middle-overs. After walking away with Purple Cap in 2019, Imran Tahir is yet to take the field. And Mitchell Santner, another capable spinner in T20s, hasn't made to the XI.

Kings Gambit

Two teams with very different ethos go head to head at the Wankhede Stadium on Friday. Here's a look at the match between Punjab Kings and Chennai Super Kings

TODAY'S MATCH @ MUMBAI 7.30 PM, LIVE ON SS 1

Big-hitting Punjab eye run

On pace and batting friendly Wankhede, Punjab seek second win in as many games. Their big-hitting batsmen, some of whom showed form in the first match, will look to keep going. Against a mix and match CSK outfit who don't possess express pace, they could well get stuck in yet again.

CSK's tactics rejig

In the first match against Delhi Capitals, the batsmen showed more intent. They will have to show more of that as they are away from their comfort zone of spin-friendly Chepauk. One also wonders if they will opt for Imran Tahir for more control in the middle overs.

Chris' sake, a win for RR

ENS/AGENCIES @Chennai

COMING in at No 8, Chris Morris played a gem of a cameo (36 off 18 deliveries) to help Rajasthan Royals down Delhi Capitals by three wickets in an IPL fixture at the Wankhede Stadium on Thursday. Chasing 148 for win, Rajasthan were reeling at 42-5 before David Miller (62 off 43) brought them back into the game in the company of Rahul Tewatia. Though the duo departed in space of an over to hand advantage back to Delhi, Morris had other plans. With 27 needed of 12 balls, Morris hit four sixes in the two overs bowled by Kagiso Rabada and Tom Curran to pull off a sensational win.

Earlier, Jaydev Unadkat's three-wicket burst restricted Delhi to 147/8. Unadkat (3/15 off 4 overs) dismissed Prithvi Shaw, Shikhar Dhawan and Ajinkya Rahane to trigger DC's top-order collapse. Captain Rishabh Pant's blistering 32-ball 51, studded with nine fours, was not enough as DC could only post a modest total after being put in to bat.

Brief scores: Delhi Capitals 147/8 in 20 ovs (Pant 51, Unadkat 3-15) vs Rajasthan Royals 150/7 in 19.4 ost to (Miller 62, Morris 36 n.o, Avesh 3/32).

On hard court, Indians face a Goliath in Latvia

SWAROOP SWAMINATHAN @Chennai

JUST as the world was preparing to enter a first major lockdown because of the coronavirus in March 2020, the Indian women's tennis team created history. Taking part in the Fed Cup (since been rechristened as the Billie Jean King Cup) Asia/Oceania Zone Group I tie, the squad put together an impressive body of work to qualify for the play-offs for the first time ever.

Sania Mirza, who played her role to perfection by winning all three of the matches she played in, had spoken about its significance last year to the official website. "I think we need to exhale and enjoy this moment too, because this is a huge step for women's tennis in India," she told the competition's organisers. "We are coming from a country where women's tennis was redundant until maybe 15 years ago."

In Jurmala, a resort town near the capital city of Riga, Indian women's tennis will step into unchartered territory on Friday. And going by rankings alone, the tie against Latvia is the quintessential David vs Goliath match-up. Latvia's two leading singles players are both inside the top 55. One of them, Jelena Ostapenko, who will open the tie for the hosts against Ankita Raina, has a singles Grand Slam to her credit (2017 French Open).

Ankita Raina

Their leading singles player, Anastasija Sevastova, is fresh of a quarterfinal appearance in Miami, a WTA 1000 meet, earlier this month. So it's safe to say that Latvia are favourites to advance. But Sevastova, who has been watching YouTube videos of Karman Kaur Thandi, India's second singles player, dismissed such notions. "We have been preparing for this like any other." What could ever so slightly make this a contest is the fact that they are playing on hard court. "We are more comfortable playing on hard," said Ankita Raina, who will be playing three matches over the next two days, including the opener against Ostapenko.

Matches: Jelena Ostapenko vs Ankita Raina, Anastasija Sevastova vs Karman Kaur Thandi, Sevastova vs Raina, Ostapenko vs Karman, Diana Marcinkevica/Daniela Vismane vs Sania Mirza/Raina

SAI wants to prune nat'l campers list

AYANTAN CHOWDHURY @New Delhi

ALARMING rise in the number of COVID-19 cases in the major Sports Authority of India's National Centre of Excellences forced authorities to prune the number of national campers. Days after SAI gave a three-week summer vacation to athletes, other than Olympic-bound and those who were training for international competitions, it has decided to further reduce the size of campers.

An SAI circular dated April 13 said that "to ensure safe training environment for Olympic bound athletes, the national coaching camp at all SAI NCOEs will be restricted to athletes who have qualified or have a strong probability of qualifying for Olympics".

That means all non-Olympic campers who have no chance of qualifying for the Olympics have to leave the camp. The national camps will have athletes who have qualified for the quadrennial extravaganza or players who have the highest probability of qualifying for Tokyo in the coming days. Going by the circular, the remaining campers will have to be sent home.

The NSFs has been asked to send a revised list of athletes who will stay back in the camp and sanction orders would be sent accordingly. In many disciplines, the national camps have elite athletes who take part in international events that are happening around the world like wrestling, athletics, shooting but they have no chance of qualifying and they will be asked to leave. It needs to be seen if sparring partners are affected. This will be reviewed after a period of 15 days and necessary changes will be made.

Compound camp

There is no clarity as of now regarding the compound archery camp which is underway at the SAI Sonepat centre. The entire archery contingent including the compound A team and the recurve archers will leave for Guatemala to take part in the World Cup Stage I.

Need Plan B to rise to next level: Satwik & Chirag

ANMOL GURUNG @Chennai

CORONAVIRUS has certainly turned the world upside down for many. With surge in cases, it continues to put athletes in a spot of bother. Indian shuttlers have been one of the most-affected bunch. These globetrotters have had no choice but to cross borders in order to fetch crucial Olympic qualification points and to get match-practice ahead of the Tokyo Games. Ask Chirag Shetty, one-half of India's No 1 doubles pair.

"It's definitely hard to witness the current situation. I lost my grandfather last week and I could not attend his funeral. All I can do is pray and ask them (for family and friends) to stay safe. It definitely plays in your mind. What can I do? I have to stay focussed and continue with my preparations for the Olympics," he said.

India registered over two lakh coronavirus cases on Wednesday. Despite the huge loss, Chirag makes a brave face and says that he has been trying to look at the positives from the sport he loves. "Playing after a year, we had good outings in Thailand. We had a close game against World No 2 (Yonex Thailand). In the second event, we would have loved to play in the final... we're trying to new style of play in recent times. The outcomes were not our best in recent times but we are a lot more tactical right now," the 23-year-old notes.

In these unprecedented times, athletes have to undergo multiple tests while on tour, ensure that protocols are followed. There's lot of anxiety and stress involved. There have been calls for athletes to get vaccinated and both Chirag and his doubles partner Satwiksairaj Rankireddy, who have the backing of the government under Target Olympic Podium Scheme, approve the idea of getting a jab. "It has been disturbing. We want to get vaccinated if we get the approval from the government," Satwik says.

The pair has displayed enough promise in recent years, reaching new milestones in the process. Having reached the top-10, they have tall ambitions to climb even higher. "We need to have a Plan B to move to the next level. The top-5 players have been playing for a long time. On the day, you can beat them if you play your best. But it's difficult to get that result on a regular basis," Chirag notes.

EXPRESS READ

Boxer Vikas ousts European Champion

NEW DELHI: Continuing India's fine run at the AIBA Youth World Championships, Vikas pulled off a stunning upset win against the reigning European Youth Champion Yasen Radev as five Indian boxers registered remarkable victories on the second day of the tournament in Kielce, Poland. Playing in the men's 52kg category, Vikas made Radev work hard with his swift moment.

Chess great Anand's father passes away

CHENNAI: Five-time world chess champion Viswanathan Anand's father, K Viswanathan, died here on Thursday following brief illness. He was 92 and breathed his last at a city hospital. A former general manager of the Southern Railway, Viswanathan is survived by two sons and a daughter. Anand's wife Aruna described him as a great support.

CL: City beat Dortmund to advance, Liverpool out

LIVERPOOL: Liverpool were left to rue a host of missed chances as Real Madrid held out for a 0-0 draw at Anfield to progress to the semifinals of the Champions League 3-1 on aggregate. In another match, at the fifth time of asking, Pep Guardiola has guided Manchester City to tge semifinal as they saw off Borussia Dortmund 2-1 and the demons of previous quarterfinal disappointments.

Gold for Sarita in Asian meet

FIROZ MIRZA @Chennai

SARITA Mor became the first Indian woman to defend the Asian title when she defeated Mongolian wrestler Shoovdor Baatarjav 10-7 in the final of the Asian Championships in Almaty on Thursday. She had won gold in the 2020 edition held in New Delhi. Her first medal from the meet came in 2017 when she pocketed silver in the 58kg.

However, the 25-year-old was not in good shape to begin with. She was down with fever for the past two days and lost the closely contested first bout 4-5 to the same Mongolian wrestler, who is a two-time World Championships bronze medallist. Up next was World No 2 in 59kg and local favourite Diana Kayumova. By then, Sarita had regained her confidence as well as the mojo. She won the contest 11-0 by technical fall and defeated Nuraida Anarkulova of the host country by the same scoreline in the semifinal. "I was unwell for the past two days and the fever was still there when I started. It was tough but I was confident of staging a comeback as we have practised hard in the last one year," Sarita told this daily.

Almaty is located in the mountainous area of Southern Kazakhstan in the foothills of the Trans-Ili Alatau at an elevation of 2,300-3,000 feet. The high altitude also meant low oxygen saturation level.

"Change in climate was the biggest factor and I think that made me unwell. It was difficult to adjust but I am happy I did it to become the first Indian woman wrestler to retain my Asian title."

She was competing in the 57kg category eyeing an Olympic quota in the past but had to switch to 59kg after losing the selection trials. However, the Sonepat wrestler hasn't lost hope yet. "I always maintain my weight so that I can compete in the 57kg or 59kg depending on the situation. I know I cannot compete in the Tokyo Olympics now but this medal will give me confidence to prepare better for the Games scheduled four years later," said Sarita.

Indian football gaining ground: Goa coach Ferrando

MARTIN JOSEPH @Kochi

JUAN Ferrando couldn't hide his excitement of having frustrated a renowned coach like Laurent Blanc on a football pitch after FC Goa held Al-Rayyan to a 0-0 draw in their Group E AFC Champions League fixture on Wednesday.

Even the former Paris Saint-Germain coach Blanc lauded the Goan outfit for their defensive resilience and for putting up a strong fight.

Ferrando feels such nights can act as significant stepping stones for a nation where football is still catching up with the masses. "It is a good moment because maybe now people will know about Indian football. Five or six years ago, when you were talking about Indian football, there was not much. The most important thing was cricket. Football wasn't talked about so much. Now, young players understand about the Champions League and seeing that Indian teams are playing in it," said Ferrando.

Few would have given the Goan outfit a chance but they managed to snatch a point and their Australian defender James Donachie felt that the team put up a good show. "It was the first time the boys have played in this competition. It's a difficult competition and everyone played really well and worked hard," said Donachie.

PUBLIC NOTICE

This is to inform the General Public that I, G.Bhagya, W/o. Rangaswamy, aged about 43 years, resident of Babasabara palya, Kengeri Hobli, Bangalore South Taluk, Bangalore - 560060 has lost the original sale deed pertaining to the Schedule property bearing Khatha No.65/1 property No.15 was registered my favour on 24.08.2006 in the Sub-Registar office, Kengeri Book-1, KEN-1-19414/2006-07-CD No-K.E.N.D-321, Page No.1 to 7, out of which I have lost the original page No. 4 & 5 in the Sale deed. For that I have given complaint in the Kengeri Police Station on 05.04.2021. If any body having any interest or disputes over the documents can inform / contact the undersigned address within **7 days** from the date of issue of this notice.

K.N.Krishna Reddy, Advocate No.63, 4th Cross, 10th Main, Jhana Jyothinagar, Bangalore-560056. 98456 55193

IN THE DISTRICT/SUPERIOR COURT FOR THE STATE OF ALASKA AT JUNEAU

CASE No. 1JU-20-930 CI

NOTICE TO ABSENT DEFENDANT

NIMMY PHILIPS ...Plaintiff (s)
vs.
AJO JOSE ...Defendant (s)

[NOTE: This notice may not contain a minor child's name. You may use initials instead.]

To Defendant: **Ajo Jose**

You are hereby summoned and required to file with the court an answer to the complaint filed in this case. Your answer must be filed with the court at **P.O. Box 114100, Juneau, AK 99811, USA or to 1jumailbox@courts.state.ak.us** within 30 days after the last date of posting of this notice. You must also send a copy of your answer to the plaintiff/plaintiff's **attorney named: Corrie Bosman** at this address: **PO Box 6005, Sitka AK 99835, USA or cbosman@sitkalegal.com**

If you fail to file your answer within the required time, a default judgment may be entered against you for the relief demanded in the complaint.

This is an action for *** Divorce (no property or debt.)**

The relief demanded is **Decree of divorce be issued due to incompatability of temperament.**

You have been made a party to this action because You are married to the Plaintiff.

Seal of the First Judicial District Trial Courts of the State of Alaska
Date : 11th March 2021

Clerk of Court
By: Deputy Clerk

* Explain nature of the action. If real property is involved or has been attached, give legal description and specific location of the property. If personal property has been attached, describe the property. If a mortgage is to be foreclosed, state names of all parties thereto and dates the mortgage was executed.

EXFILE • HEALTH

GAS THAT ERASES MEMORY

Levels of hydrogen sulfide (H_2S) in the brain could influence whether or not we get dementia and epilepsy. It is created in the body in small doses and smells of rotten eggs. A look

SYNOPSIS

1. H_2S is produced in the brain and several muscles, including thoracic aorta and the ileum
2. Tests on rat brain cells found it blocked a key brain cell gateway that helps the brain to communicate effectively
3. Treatments to reduce levels of H_2S in the brain may help in tackling dementia and epilepsy

This is an exciting finding as it gives us new insights about the role of hydrogen sulfide in various brain diseases, such as dementia and epilepsy

Dr Mark Dallas, University of Reading

Express illustration

Earlier studies

A 2001 study by University of Calgary in Canada found the gas appeared to impair cognitive performance in rats

It has also previously been linked to brain damage and nervous system damage in humans

WHAT DOES IT DO

Researchers found that H_2S disrupts the normal functioning of potassium channels, which regulate electrical activity across the connections between brain cells

Although H_2S is produced in small doses inside the body, it's also found naturally in crude petroleum, natural gas, volcanic gases, hot springs and groundwater

Human exposure to hydrogen sulfide produced outside the body is principally via inhalation, and the gas is rapidly absorbed through the lungs

50mn Dementia patients globally | **10mn** New cases recorded every year | **60-70%** Dementia cases are due to Alzheimer's

RESEARCH

- The research was conducted by experts at **the University of Reading**, the University of Leeds and John Hopkins University in the US
- Cells taken from rat brains were charged with a H_2S donor molecule, and then brain cell electrical signals were monitored
- The resulting exposure to H_2S increased the level of activity in brain cells

- The team was also able to identify which part of the potassium channel was allowing this activity increase
- They used a mutated form of the potassium channel, which has already been shown to protect nerve cells from a host of toxic stimuli, including amyloid beta, a dangerous protein found in the brain of Alzheimer's patients
- The researchers found that the mutation was resistant to the effect of H_2S
- The specific mutated channel now holds particular interest for research into Alzheimer's, given the protective benefits

Delay classes to help teens fare well

A 70-minute gap can improve students' performance by offering 3.5 hr a week extra sleep

RESEARCH

DENVER: Secondary schools should consider starting the day 70 minutes later such that the body clocks of teenagers are in better sync with the brain for the grind ahead, a study has found.

Experts from the US analysed the impact of shifting back the school day by different amounts by age group on around 28,000 students between the ages of 5–18. They found that students at the US high school level (ages 14–18) benefitted most from their delayed start at 8.20 am— getting 3.8 hours of extra sleep per week.

For children and teenagers, sleep is essential to health, social development and academic achievement — yet many are clinically sleep deprived. Additional sleep can go a long way in improving their attention span and activity.

The main reason for this is

that sleep cycles are affected by puberty in such a way that makes it difficult for adolescents to fall asleep early.

When this is combined with typically early school start times, students end up effectively burning the candle at both ends — and end up getting insufficient sleep.

The research was conducted by paediatric psychologist Lisa Meltzer of National Jewish Health in Denver, Colorado and her colleagues.

In their study, Dr Meltzer and colleagues surveyed 28,000 US elementary, middle, and high school students and their parents on an annual basis both before and for two years following trial shifts in school start times. Participating elementary schools (for ages 5–10) started 60 minutes earlier at 8:00 am, middle schools (for ages 11–13) started 40–60 minutes later at 8:50 am and high schools (for ages 14–18) began their days 70 minutes later than usual at 8:20 am.

Both the parents and the children were separately polled about the student's typical sleep schedule on both weekdays and weekends — as well as their quality of sleep and their experience of daytime sleepiness.

The team found that the students who benefitted the most from the new start times were high school students (ages 14–18), who were seen to get an average of 3.8 hours of extra sleep per week.

Further, more than 10 per cent of high school students reported that their quality of sleep had improved, 20 per cent said that they experienced less daytime sleepiness — and weekend oversleep dropped from 2 to 1.2 hours a week.

This, the team said, indicates that being allowed extra weekday sleep means that students are no longer clinically sleep deprived and do not feel compelled to catch up on needed rest on the weekend.

Middle school students (ages 11–13) also gained 2.4 additional hours of sleep per week thanks to the later start time and there was a 12 per cent decrease in reports of daytime sleepiness from this group. No significant changes were seen among elementary school students.

FACT OF THE MATTER

CATS GET HIT & RUN LAW COVER

NEW Hampshire was ahead of the pack when it passed a law nearly 40 years ago that requires drivers who injure or kill dogs to notify police or the animals' owners, or else face a $1,000 fine. It is unclear why cats and other pets were left out, but the state Legislature is currently considering an expansion that would give cats and canines equal standing. "It's a cataclysmic bill. To not pass this would be catastrophic," Sen. Tom Sherman, D-Rye, said Tuesday, drawing chuckles from fellow members of a Senate committee. Republican Rep. Daryl Abbas sponsored the bill on behalf of his wife, who found their 5-year-old cat, Arrow, dead on the street near their Salem home in July 2019. The partially blind black and gray tabby had once again achieved his "daily goal" of escaping from the house and was hit by a car, Abbas said.

Snake in lettuce kills man's appetite

ODDITY

CANBERRA: A cutomer thought he was watching a huge worm writhing in plastic-wrapped lettuce he'd just brought home from a Sydney supermarket — until a snake tongue flicked.

"I kind of completely freaked out when I saw this little tongue come out of its mouth and start flicking around," Alex White said on Thursday. It was a venomous pale-headed snake that authorities say made an 870-km journey to Sydney from a packing plant in the Australian city of Toowoomba wrapped in plastic with lettuce. The refrigerated supermarket supply chain likely lulled the cold-blooded juvenile into a stupor until White bought the lettuce at an inner-city ALDI supermarket on Monday. White phoned the WIRES rescue organization and a snake handler took the snake away that night.

ANTS THAT CAN SHRINK BRAINS

A SPECIES of ant can shrink its brain by as much as 20% but is able to grow it back to full size in future, the first insect ever discovered with such an ability. The humble Indian jumping ant is less than an inch long and, before this most recent revelation, was most well-known for its ability to leap several inches into the air. But scientists from the US found the insect can release hormones which shrink its brain by a fifth to divert resources to its reproductive system. However, if these extra nutrients and energy are no longer needed in the future, the ant can revert back to its original state. This reversible shrinking of the brain is rare, with the Indian jumping ant being the first known with the ability. The full findings are available in the journal Proceedings of the Royal Society B.

40 TOMBS IN CITY OF THE DEAD SPILL THEIR SECRETS

ARCHAEOLOGY

PARIS: Archaeologists in France have uncovered a massive cemetery containing 40 tombs dating from the first half of the first millennium. Bodies were discovered inside of amphorae, or large jars, from Northern Africa. The site, on the island of Corsica, is being called a necropolis, taken from the ancient Greek for 'city of the dead.' Corsica passed under the control of many different civilizations in the first half of the first millennium.

While artifacts found in the excavation appear to be of Roman origin, experts caution they could have been repurposed by Visigoths or later inhabitants. Archaeologists with the French National Institute of Preventive Archaeological Research (INRAP) made the discovery in Ile-Rousse, a town on Corsica's western coast. A sleepy fishing village that's becoming something of a tourist attraction, Ile-Rouse dates to the mid-18th century, but the excavation provides more details on the area's ancient inhabitants. It's been occupied for at least 6,000 years, but 'the archaeological indications of previous occupations were rare and fragmentary,' INRAP said. A dozen tombs were first discovered in spring 2019, but excavation in February and March uncovered dozens more, with 'great diversity in their architectural style,' the institute said.

Researchers began excavating two 6,500-square-foot sites in the center of town. They uncovered amphorae, which were often used to import olive oil, wine and other goods, across the Mediterranean from Carthage, now known as Tunisia, between the 4th and 7th centuries. The large vessels served a second purpose here, the institute said, as 'receptacles for the deceased.' Typically amphora were only used to bury children but the researchers found adults had been entombed, as well. The remains of 40 individuals were uncovered in all, buried some time between the 3rd and 6th centuries.

The necropolis was discovered behind Ile-Rousse's parish church, the Church of the Immaculate Conception, during archaeological surveys conducted in anticipation of a construction project. Some of the tombs were covered with terracotta typically used as roof tiling in ancient Roman architecture, but analysis needs to be conducted to learn more about the identities of the deceased.

Question of ethics arises as scientists create human-monkey hybrid for cancer research

RESEARCH

WASHINGTON: Ethical questions have been raised over the moral status of a new 'monkey-human' hybrid created as an embryo by scientists in the US and China. Experts from the Salk Institute injected human stem cells into primate embryos, creating a new hybrid that continued to grow for up to 20 days. The team says its work has the potential to provide insights into developmental biology and evolution, as well as aid research efforts into cancer treatments.

Lead author Juan Carlos Izpisua Belmonte said there are certain types of experiments you can't conduct on humans, so creating nearly-human hybrids could solve this roadblock and provide vital data not available from other sources. Scientists not involved in the study called out the ethical implications, saying it raises questions over what a human is and if they could have human-like faculties. Julian Savulesca, an expert in the ethics of scientific research from the University of Oxford said: "The key ethical question is what is the moral status of these novel creatures?"

Questioning whether they would be considered human enough to be treated as a person, whether they had human-like mental capacity and whether they really can be used in research. Interspecies chimeras in mammals have been made since the 1970s, when they were generated in rodents and used to study early developmental processes. This new technology became possible when the study team created a technology that allowed monkey embryos to stay alive and grow outside of the body. In the current study, six days after the monkey embryos had been created, each one was injected with 25 human cells. After one day, human cells were detected in 132 embryos. After 10 days, 103 of the chimeric embryos were still developing.

Survival soon began declining, and by day 19, only three chimeras were still alive, after which point the team destroyed them before they could develop further. Human-animal hybrids created before this didn't last very long due to low efficiency levels, including the first human-pig hybrid made by the same team.

A genetic chimera, or chimerism, is a single organism composed of cells from different individuals - containing two sets of DNA. The team then were able to create chimeras between more similar species after the pig-human failed, including this new human and non-human primate chimera.

Importantly in the case of the new embryos, the percentage of human cells remained high throughout the time they continued to grow, study authors said. "This will allow us to gain better insight into whether there are evolutionarily imposed barriers to chimera and if there are any means by which we can overcome them," said Izpisua Belmonte.
